

Point selection and Strategies

FIVE ELEMENT THEORY AND FIVE SHU POINTS

Class Learning Objectives

- ◉ Articulate general functions of the five shu-transport points
- ◉ Describe and apply the 5 element relationships in point selection
- ◉ Apply Korean Four Needle Techniques

Five Shu-Transport Points Overview

- Location: between the elbows and fingers, knees and toes
- Analogy from well to spring, to stream, to river, to sea
- Points share common characteristics and functions
- Association with the characteristics of one of the 5 elements

Jing – Well points

- Located at the tip of the fingers and toes (except K1)
- Qi goes out and is superficial
- Can affect the whole channel
- Function: clears heat, restores consciousness, rescues collapse; treats fullness below the heart and mental irritation (*Nan Jing*)
- Associate with **wood** element on **yin** meridian
- Associate with **metal** element on **yang** meridian

Ying – Spring Points

- ⦿ Functions: clears heat from the channel and respective zang fu organ
- ⦿ Associate with **fire** element on **yin** meridian
- ⦿ Associate with **water** element on **yang** meridian

Shu – Stream Points

- ⦿ Function: treats heaviness of the body and joint pain, intermittent conditions
- ⦿ Associate with **earth** element on **yin** meridian; Yuan-source point
 - Treats Zang organ disorders
- ⦿ Associate with **wood** element on **yang** meridian
 - Unblocks the channel

Jing – River Points

- ⦿ Function: treats lung issues, dyspnea, cough, chills and fever, changes in voice, sinew and bone issues
- ⦿ Associate with **metal** element on **yin** meridian
- ⦿ Associate with **fire** element on **yang** meridian

He – Sea Points

- ⦿ Locate at or near the elbow or knee
- ⦿ Functions: treats stomach and intestine issues, counterflow of qi and diarrhea, fu organ issues
- ⦿ Associate with **Water** element on **yin** meridian
- ⦿ Associate with **earth** element on **yang** meridian

Commonly Used Five Transport Points

- ⦿ **Jing well**
 - LU11: for sore throat
 - KD 1: Dizziness, vertex headache, throat pain, loss of voice
 - LV1: Bitter taste in mouth and ceaseless nosebleed
- ⦿ **Ying Spring:**
 - LU10: Heat from the throat (Sore throat due to heat)
 - ST 44: Clears heat from stomach and Intestine. What might this treat?
 - LV2: clear liver fire (Head and eyes, etc)
 - HT-8 and P-8: Heart fire
- ⦿ **Shu Stream:**
 - LU9, SP3, HT7, KD3, P7, LV3 (Treat zang – Yuan Source)
- ⦿ **Jing River**
 - KD7, BL60, SJ6 used frequently but possibly not due to jing river function
- ⦿ **He Sea**
 - See points in table. Many are very commonly used

Mother and Child Relationship

- ◉ *Nan Jing (The Classic of Difficulties):*
 - In case of deficiency, reinforce the mother
 - In case of excess, reduce the child
- ◉ Refers to the Five Element Relationship in the Generating Cycle

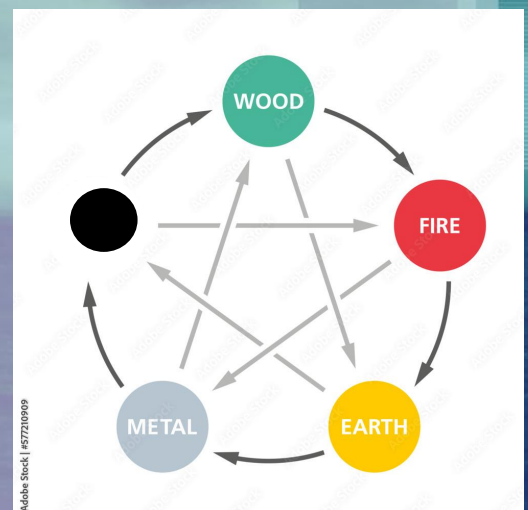

Example

- Excess pattern of liver
 - Reduce the Child
 - Child of wood is fire
 - Which point would this be?

Example

- Kidney deficiency condition: frequent urination
 - Tonify the Mother
 - Mother of water is metal
 - Which point would this be?

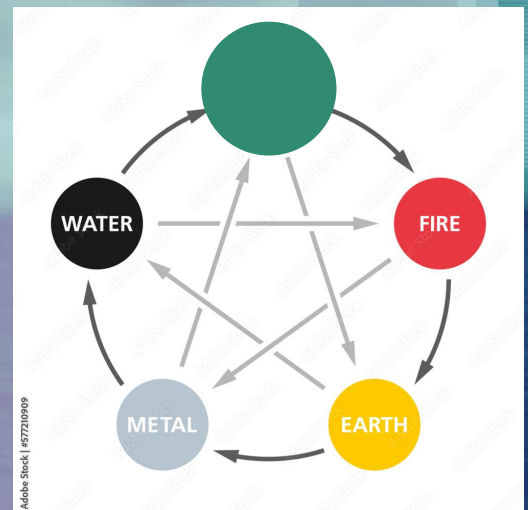

Situations that do not work

- ◉ HT 9, P9 are often used to clear heat
- ◉ LI 11 – used to clear heat
- ◉ SP 2 – not the most tonifying point
- ◉ GB43 and GB 38 – both are used to clear heat

Korean Four Needle Techniques

- ◉ Selecting points based on
 - Generation cycle (Mother – Child relationship)
 - Controlling cycle

Korean Four Needle Techniques

Excess Pattern

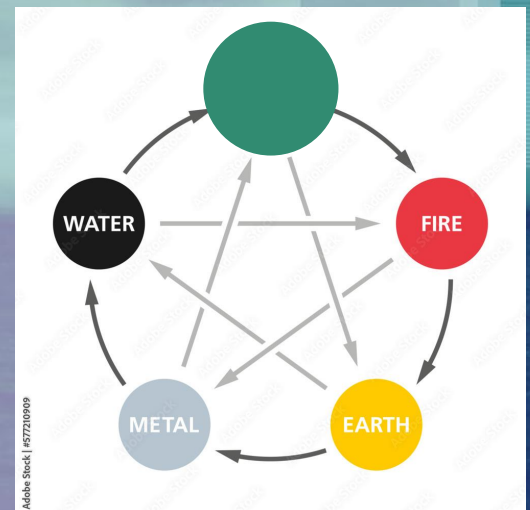

- Sedate the Child
 - Child point on the affected Channel
 - Horary point on the Child Channel
- Tonify the Grandma
 - Grandma point on the affected Channel
 - Horary point on the Grandma Channel

Deficiency Pattern

- Tonify the Mother
 - Mother point on the affected Channel
 - Horary point on the Mother Channel
- Sedate the Grandma
 - Grandma point on the affected Channel
 - Horary point on the Grandma Channel

Example – 4 needle techniques

- Excess pattern of liver
- Which points?
