

Qi Definition 1. Fundamental substance constituting universe. All universal changes produced by movement of qi. 2. Fundamental substance constituting human body and maintaining normal activities of human body. Qi Formation & 3 organs involved (3 ways that human body receives Qi.) 1. Jing Qi (Essence Qi): Inherited from parents & stored in kidney. 2. Gu Qi (Water & Food Qi): Derived through transportation & transformation functions of spleen. 3. Qing Qi (Clear Qi): Air drawn in through lung. (Liver & Heart don't receive Qi because they have special duties) Qi Dynamic Movement • Liver Dominates Qi Dynamic Movement in body (Up, Down, Out, Into) • Liver is center of organ dominated Qi circulation • Maintains free flow of Qi • Liver is 12th Meridian • Heart is central organ of blood circulation • Common Balances of Qi Dynamic Movement • Liver & Lung • Spleen & Stomach • Heart & Kidney • Lung Dominates Qi & Controls Respiration Qi Circulations 1. Great Heaven Circulation (12 Meridian Circulation) 2. Mini (Minor) Heaven Circulation (Du & Ren Meridians Circulation)	Qi Functions 1. Promoting & Stimulating ➢ Growth & Development of human body ➢ Physiological activities of zang-fu & meridians ➢ Circulation of blood ➢ Distribution of body fluid 2. Warming ➢ Basic source of warm energy. ➢ Qi maintains & adjusts normal temperature of body. (Wei Qi maintains temperature by opening/closing pores.) 3. Defensive ➢ Defends body surface against exogenous pathogenic factors. 4. Checking ➢ Checks, controls & regulates certain bodily substances & metabolic products. 5. Transformative ➢ Process of mutual transformation among essence, qi, body fluid & blood. Qi Dysfunctions 1. Deficient type ➢ Qi Deficiency ➢ Qi Sinking ➢ Qi Collapse 2. Excessive type ➢ Qi Stagnation ➢ Qi Rebellious ➢ Qi Suffocation
---	--

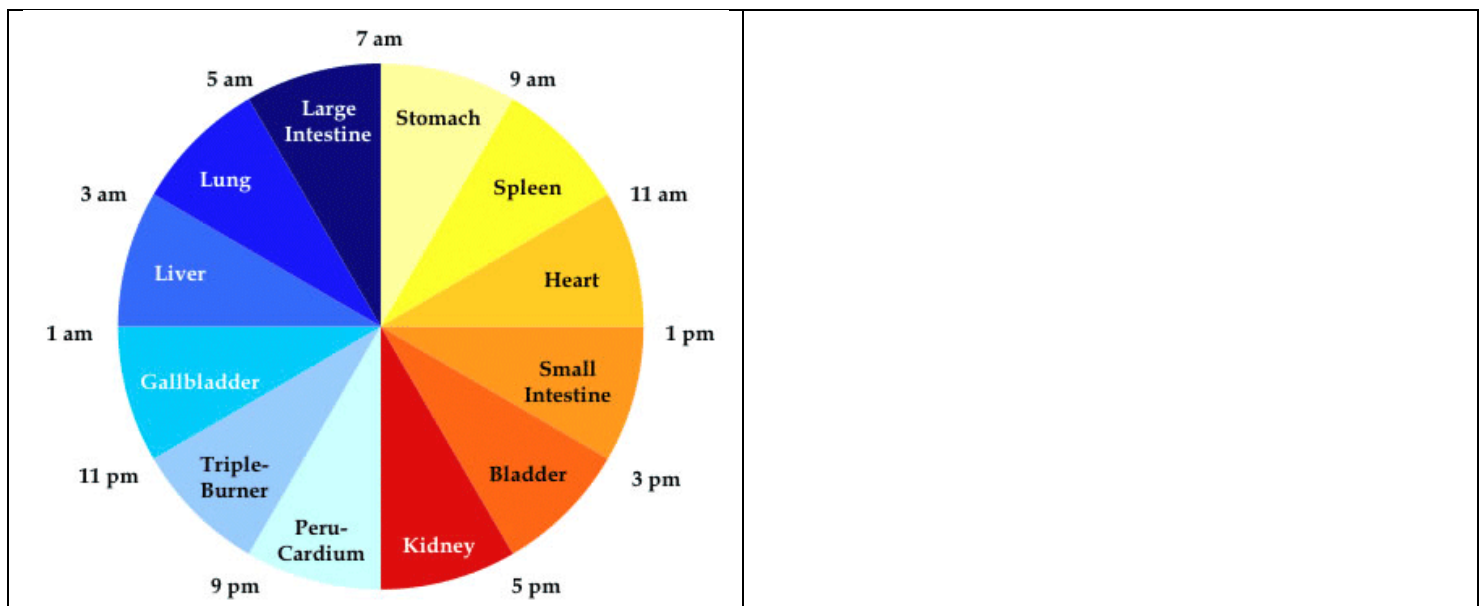

Qi Classification	Formation	Distribution	Function
Yuan Qi (Primary Qi, Original Qi, Essential Qi)	• Derived from congenital essence (Jing qi). • Needs to be supplemented & nourished by Gu Qi (obtained after birth from water & food)	• Takes root in kidney • Spreads to entire body via San Jiao	• Fundamental force of vital activities • Basic substance of maintaining life
Zong Qi (Pectoral Qi, Gathering Qi)	• Formed by combination of: • Qing Qi (Clear Qi) from Lung • Gu Qi (Water & Food Qi) from Spleen & Stomach	• Located in chest	• Promotes heart's function of controlling blood & vessels. • Functions associated with Zong Qi: • Circulation of Qi & Blood • Coldness & Warmth • Motor ability of four limbs & trunk
Ying Qi (Nutrient Qi)	• Derived from Gu Qi (Water & Food Qi) from Spleen & Stomach	• Circulates inside vessels (Any vessels: Blood vessels, meridians, etc.)	• Produces Blood • Circulates with Blood (providing further nourishment)
Wei Qi (Defensive Qi)	• Derived from Gu Qi (Water & Food Qi) from Spleen & Stomach	• Circulates outside of vessels	• Protects body surface (Defends body against exogenous pathogenic factors) • Controls pores opening & closing → Readjusts body temperature • Warms & strengthens zang-fu, muscles, skin & body hair

Differentiation of Qi Stagnation & Blood Stasis			Qi Dynamic Movement				
Type	Qi Stagnation	Blood Stagnation	Upper Balance (Jiao)	Lung (Metal)	↓	Heart (Fire)	↑
Pain	Distention, Spasm	Pricking, Stabbing	Middle Balance (Jiao)	Spleen (Earth)	↑	Stomach (Earth)	↓
Location	Traveling	Fixed	Lower Balance (Jiao)	Liver (Wood)	↑	Kidney (Water)	↓
Time	Day, Intermittent	Night, Constant	Right	Lung (Metal)	↓	Heart (Fire)	↑
Mass	Moving	Fixed	Center	Spleen (Earth)	↑	Stomach (Earth)	↓
Color	Light Purplish	Dark Blue	Left	Liver (Wood)*	↑	Kidney (Water)	↓
Progress	Short	Long	* Liver is energetically considered to be in lower burner				
Bleeding	No	Yes, with dark clots	Circulation Differentiation Heart: Center of Blood Circulation Liver: Center of Qi Circulation		Reproductive Differentiation Kidney: Produces reproductive essence Liver: Governs sexual function & action		
Menstruation	PMS	Amenorrhea					
Tongue	Normal or Light Purple	Dark Purple					
Pulse	Wiry	Choppy					

TCM PATHOLOGY

Qi Deficient Patterns			
	Qi Deficiency (Xu) → Progression →	Qi Sinking → Progression →	Qi Collapse → Death
Definition	- Insufficient Qi to adequately carry out various functions in human body - Pathological changes result from hypofunction of Zang-Fu Organs & meridians More active during day	- Progresses from Qi Deficiency - Qi flows in DOWNWARD direction - Characterized by weakness in Qi holding ability - Often occurs in Middle Jiao → AKA "Sinking of Qi of Middle Jiao"	- Terminal stage of pathological changes from Qi extreme exhaustion - Qi will escape out from human body
Etiology	- Weakness after long illness - Improper diet & poor nutrition (Gu Qi) - Emotional stress & depression - Over physical work - Old age condition - Lack of proper exercise ➢ Qing Qi most important for exercise	Same as Qi Deficiency	- Abrupt aggravation in acute or chronic diseases - Severe vomiting & diarrhea - Great loss of blood - Profuse sweating (Heat exhaustion) - Severe infection - Heart attack - Internal organ failure
Clinical Manifestations	BIG 5: Know in order!!! - Pale complexion - Fatigue - Apathy (mental fatigue) - Dizziness (Body feels light) - Spontaneous sweating ➢ (Most severe symptom → severe Qi Xu)	- Facial pallor - Fatigue - Apathy - Dizziness - Spontaneous Sweating	- Profuse cold sweating like pearls → (Body fluid escape due to Wei Qi failure) - Coolness of body (Wei Qi failure) - Ice cold hands & feet (Wei Qi failure) - Feeble breathing (Lung Qi exhaustion) - Listlessness - Absence of thirst - Incontinence (No control of holding Qi, Kidney Qi desertion) - Short tongue (Complete spleen Qi prolapse) - Fading pulse (Heart Qi fails to move circulation) - Coma (Yuan Qi fails to nourish spirit)
Lung (Lung Dominates Qi)	- No energy to cough - Dyspnea (shortness of breath) - Clear & thin phlegm - Weak voice - Aversion to wind - Catches cold easily	Signs & Symptoms (Downward Direction): Key Symptom: Organ Prolapse - Most Common Organs: Stomach, anus, uterus, kidney - Additional: Brain, mitral valve, nephritis w/ protein, diabetes (sugar in urine) - Distention & sinking sensation in abdomen - Prolonged diarrhea - Urinary Incontinence - Miscarriages - Infertility	
Heart	- Palpitations, tachycardia - Shortness of breath - Stifling sensation in chest		
Spleen	MOST IMPORTANT ORGAN TO TREAT FOR QI DEFICIENCY!!! (B/C Produces Gu Qi) - Poor appetite - Abdominal Distention - Loose stool (floating)		
Kidney	- Frequent & clear urination (especially nocturia: peeing at night) - Dribbling incontinence - Weakness in knees & lumbar region - Poor hearing (kidney opens into ears) → Endocrine system change - Lower back pain		
Liver	NO LIVER QI DEFICIENCY!!!		
Tongue	- Pale - Teeth marks - Flabby: Muscle weakness - Swollen: Too large - Thin white coating	- Pale - Teeth marks - Flabby: Muscle weakness - Swollen: Too large - Thin white coating	- Pale - Moist - Possibly short
Pulse	Deficiency type - Weak - Fast, but in normal range	Deficiency type - Weak - Fast, but in normal range	Micro & fading (BP < 90/60 mm/Hg)
Treatment Principle	- Tonify Qi (Replacement) - Strengthen spleen & stomach Spleen is most important organ to tonify in deficiency!!!	- Strengthen middle jiao to uplift qi TONIFY SPLEEN!!!	Restoring Qi to rescue collapse
Therapeutics	- Herbs - Ginseng, Astragalus, Codonopsis - Si Jiu Zi Tang (Ginseng, White Atractylodes, Poria, Licorice) - Acupuncture - ST 36 (Energy, good digestion) - UB: 13, 15, 20, 23, LU 1, LV 13, GB 25, REN 14, L9, SP 3, K3, H7 - Back Shu Points, Front Mu Points, REN	- Herbs - Bu Zhong Yi Qi Tang: Tonify Middle Jiao & Benefit Qi Decoction (Astragalus, Ginseng, White Atractylodes, Angelica, Cimicifuga, Bupleurum) - Acupuncture - DU 20, ST 36, UB 20, REN 6	- Herbs - Sheng Fu Long Mu Tang (Ginseng, Aconite, Dragon bone, Oyster shell) - Acupuncture - DU 26, DU 25

Qi Excess Patterns			
	Qi Stagnation → Progression →	Qi Rebelling → Progression →	Qi Suffocation → Death
Definition	Qi in a specific portion of body or specific zang-fu organ is retarded and obstructed	- Dysfunctions of Qi ascending that lead to Qi abnormally moving in UPWARD direction - Disturbs the function of Zang-Fu organs	- Terminal stage of pathological changes progressing from qi extreme stagnation & rebelling - Will cause immediate whole body Qi dynamic failure
Etiology	- Mental Depression - Emotional stress - Improper diet - Pathogen obstruction	- Same as Qi Stagnation Organs with NO Qi Rebelling: - Kidney: Only deficiency, never excess - Heart: Emperor → Who rebel against?	- Abrupt aggravation in acute or chronic diseases - Stroke (wind stroke, usually due to Liver Qi Stagnation) - Emotional Shock (Liver) - Severe asthma (Lung) - Severe vomiting (Stomach)
Clinical Manifestation	- Traveling, transient, intermittent Pain more active during Day - Distention, possibly masses that appear, disappear or move	NO DEFICIENT REBELLIOUS QI!!! ONLY EXCESS!!!	- Loss of consciousness (immediate) - Closed symptoms: - Tightly closed hands & feet - Clenched Jaws - Rattling in throat - No sweat, dry skin - Urine retention - Constipation Choking: example of rebellious Qi causing suffocation
Lung	- Distention & fullness in chest (Impaired dispersion & descending functions) - Cough & asthma	- Cough - Wheeze, panting, asthma - Hemoptysis (coughing up blood)	
Liver	- Pain & distention in hypochondrium - Breast distention - Mental depression, irritability, mood swings	- Headache - Dizziness, Vertigo - Syncope (fainting) - Coma	
Stomach	- Pain & distention in epigastrium - Belching - Borborygmus	- Hiccups - Belching - Nausea - Vomiting, Acid Reflux, Heartburn	
Kidney	NO KIDNEY QI EXCESS!!! ONLY DEFICIENCY!!!	NO KIDNEY QI REBELLION!!! Kidney only has qi deficiency, never excess.	
Tongue	- Relatively normal tongue, but ready to change - Slightly purple tongue	Depends on presiding factor causing Qi Rebelling	Depends on presiding factor causing Qi Suffocation
Pulse	Wiry pulse (like violin string)	Wiry pulse	- Rolling & forceful pulse - Will suddenly stop soon
Treatment Principle	Regulating LIVER to circulate Qi	Regulating & descending Qi	Opening the orifice to rescue the spirit
Therapeutics	- Herbs - Bupleurum, immature bitter orange, white peony, licorice - Acupuncture 4 Gates (LV 3, LI 4), LV 14, GB 34	- Herbs - Ginkgo seed, pinellia, gastrodia - Acupuncture - UB 13, ST 36, LV 2, LV 14, L 7, P 6 (#1 anti-nausea point)	- Herbs - Musk, Storax - An Gong Niu Huang Wan - Su He Xiang Wan - Acupuncture - DU 1, REN 1, Jing Well Points, DU 26

TCM PATHOLOGY

Blood Patterns				
	Blood Deficiency	Blood Stagnation	Blood Heat	Blood Cold
Definition	- Insufficient Blood to nourish zang-fu organ More active during night <u>Organs w/NO Blood Deficiencies:</u> Spleen Lung Kidney	Accumulation of Blood located in Local Area due to: - Hindrance of blood circulation - Extravasated blood not dispersed or immediately expelled from fixed location in body More active during night	Heat in Blood	Cold in Blood
Etiology	- Congenital insufficiency (babies, elderly) - Spleen & Stomach deficiency (poor nutrition/digestion) - Acute or chronic hemorrhages (menses, GI tract, mental stress consuming blood) - Prolonged diseases - Overthinking - Blood stagnation - Intestinal parasites (malnutrition)	Many Causes: - Qi Stagnation ➢ ↓ Qi circulation ➢ ↓ Blood circulation - Qi Deficiency ➢ ↓ Qi → Weakness in normal Blood movement - Blood Cold ➢ Pathogenic Cold Invasion - Blood Heat ➢ Pathogenic Heat Invasion - Trauma ➢ Sprains & contusions ➢ Hemorrhage	Pattern resulting from: - Endogenous (internal) heat in blood system (Ex. Obstruction of Liver Qi Turning into Fire) - Invasion of blood system by exogenous (external) pathogenic heat	Pathogenic Cold invades body & accumulates in Local Area ➔ Qi & Blood Stasis
Clinical Manifestation	1 Yellow & 5 Pales: - Sallow (yellow) complexion [but not Jaundice, which has deeper color & yellow sclera] Pale complexion w/no shining Pale lips (Spleen) Pale tongue (very thin, narrow) Pale conjunctivas (inside eyelid) Pale fingernails (even spoon nails)	<u>Local Signs & Symptoms:</u> - Pricking or cutting pain - Fixed pain - Does not like pressure - Aggravated at night - Purplish color in local area - Mass in abdomen <u>General Signs & Symptoms:</u> - Dark complexion - Dry, rough, lusterless skin - Purpura (purple rash) in skin - Cyanosis in skin & fingernails <u>Hemorrhage Symptoms:</u> - Hemorrhage w/dark purple, clotted blood - Tarry stools - Purplish varix (varicose, spider veins) on abdomen or legs - Amenorrhea or dysmenorrhea w/dark purple, clotted menses <u>For GI System Bleeding Only:</u> - Near Blood: Near rectum → Fresh red blood (hemorrhoids) - Far Blood: Upper GI Blood → Far from rectum → Dark, tarry stool	<u>Hemorrhages:</u> - Hemoptysis (Lung) • Coughing up Blood - Hematemesis (Stomach) • Vomiting Blood - Hematochezia (LI) • Fresh blood → Near Blood - Melena (Spleen) • Tarry stool → Far Blood - Hematuria (Kidney) • Blood in urine - Epistaxis (Nose) • Bloody nose - Menorrhagia (Uterus) • Any excessive bleeding from uterus - Subcutaneous hemorrhage <u>Excessive (Shi) Heat:</u> - Irritability, restlessness - Delirium, mania, Coma - High Fever <u>Deficiency (Xu) Heat:</u> - Afternoon fever - Fever in 5 centers • 2 hands, 2 soles, epigastrium - Night sweating - Dry throat & mouth - Wind manifestation from Excess Heat: • Tremors, convulsions • Opisthotonos (tetanus)	Local Blood Stagnation & Cold commonly found in hands, feet, NOSE & female systems - Pain in hands & feet • Relieved by warm - Purplish & cold skin - Prefer Heat to Cold Female System Manifestations: - Lower abdominal pain • Fixed, cramping, ovarian cysts, etc. - Oligomenorrhea • Delayed menses - Dark purple blood flow w/clots
Heart	- Palpitations, tachycardia - Insomnia - More dreams - Poor memory (↓ mental function because Heart dominates Blood & Shen)			
Liver	- Dizziness - Blurry vision - Bird Blind (Night blindness) - Liver blood Xu can cause wind → Tendon & muscle spasms - Liver blood nourishes muscles - Limb tremors - Extremity numbness (insufficient blood) - Liver controls menses: • Oligomenorrhea (delayed menses, scanty blood) • Amenorrhea (no menses) - Light colored menstrual flow			
Tongue	- Pale tongue body - White coating	- Dark purple tongue body - Purpura on tongue	- Deep red - Yellow coating	- Dark pale - White coating
Pulse	Thready & weak	Thready & choppy	Wiry & rapid	Deep, slow or choppy
Treatment Principle	- Nourish blood - Tonify & Reinforce Qi	- Circulate blood to hemolyze (break down) stagnation - KEY: Move/reinforce Qi to treat Blood Stagnation	- Cool Blood - Clear Heat	- Warm meridians - Eliminate Cold
Therapeutics	Herbs - Prepared Rehmannia, Angelica (Dang Gui), Ligusticum, White Peony Acupuncture - SP10, UB17, H7/P6, LV8/UB18	Herbs - Persica seed, carthamus, Ligusticum, Angelica, Red Peony, Raw Rehmannia Acupuncture - UB17, SP10 (Move Blood), LV3 (Move Qi)	Herbs - Red peony, rhinoceros horn, Fresh rehmannia, Moutan bark Acupuncture - Bleeding techniques on Shi Xuan (Jing Well points on fingers)	Herbs - Aconite, Cinnamon bark or twig, Dry ginger Acupuncture - Moxa on REN 4, REN 6, DU 4

Intermingled Qi & Blood Pattern Identification					
	Qi & Blood Stagnation	Qi Deficiency → Blood Stagnation	Qi & Blood Deficiency	Qi Fails to Control Blood	Collapse of Qi Follows Bleeding
Definition	Constraint of Liver Qi due to emotional changes & stress, pathogenic factors invade body. Qi Stagnation comes first, then Blood Stagnation.	Qi Deficiency, which due to chronic diseases results in stagnation of Blood circulation.	Chronic diseases result in Qi & Blood not able to convert to each other.	Often caused by Qi Deficiency due to chronic disease, chronic bleeding.	Often due to trauma, internal vessel impairment.
Clinical Manifestation	- Hypochondriac & chest distention - Traveling pain - Easy to anger - Mass in hypochondriac area w/ pricking pain (Blood stagnation) - Refuses (dislikes) pressure (Excess) - Irregular menstruation (typical w/ liver Qi stagnation) - Dysmenorrhea - Amenorrhea - Dark purple flow with clots (Blood stasis)	Qi Deficiency Symptoms: - Pale face - Fatigue - Apathy Blood Deficiency Symptoms: - Pricking pain - Fixed pain - Refuses (dislikes) pressure - Often in chest & hypochondriac regions	- Pale or chlorotic face - Blood Deficiency: Sallow/yellow face, not shiny - Qi Deficiency: Pale, puffy & shiny face (water retention) - Apathy - Fatigue - Spontaneous Sweating Liver Blood Xu: - Dizziness - Flowery vision Heart Blood Xu - Palpitation - Insomnia	- Vomiting Blood - Blood in stool - Skin purpura - Uterine bleeding - Shortness of Breath - Fatigue - Pale face Refer to ER immediately for acute or severe cases! 3 reasons cause hemorrhage: - Blood Stagnation - Heat in Blood - Qi not controlling Blood (Most common)	During bleeding: - Suddenly pale face - Extremely cold limbs - Sweating profusely - Even coma
Tongue	Dark purple tongue or with purple spots	Dark pale tongue with purple spots	Pale tongue	Pale tongue	Pale & moist White coating
Pulse	Wiry & choppy pulse	Deep & choppy pulse	Weak, thready pulse	Weak, thready pulse	Floating, big & weak
Treatment Principles	- Circulate Qi & Blood - Eliminate the stasis	- Tonify Qi to move the blood - Eliminate Stasis	Tonify Qi & Blood (Tonify Qi is more important because Qi produces Blood)	Strengthen Qi to control Blood	Revive yang for resuscitation
Therapeutics	Herbs: Angelica, Ligusticum, Persica seed, Carthmus, Pteropus excrement, Lindera, Corydalis, Cyperus tuber, Red peony, Moutan bark, Bitter orange, licorice Acupuncture: LV 3, LV 14, REN 6, SP 10 (Major point for moving blood), UB 17 (Major Blood stasis point)	Herbs: Astragalus, Angelica, Ligusticum, Red peony, Earthworm (good at moving blood), Persica seed, Carthamus	Herbs: Ginseng (South Korean ginseng is good quality), White atractylodes, poria, baked licorice, Angelica, Ligustum, White peony, prepared rehmannia, astragalus, cinnamon bark	Herbs: Gui Pi Tang (Bring Back my Spleen!) Ginseng, Astragalus, Angelica, Longan aril, White atractylodes, Saussurea, Poria, Polygala, Ziziphus, Licorice, Fresh ginger, jujube	Herbs: Shen Fu Long Mu Tang Ginseng, Baked aconite, oyster shell, Dragon's bone (animal fossils)

Blood Review Formation (3 parts of blood): Ying Qi (Nutrient Qi) from Spleen - Spleen converts Gu Qi to Ying Qi - Spleen ascends the clear to Lung via Lung Meridian Body Fluid from Lung - Lung assembles Blood (Ying Qi (from Spleen) & Body fluid (water)) - Blood dispersed to body by heart pumping Essence from Kidney - Ying Qi (from Gu Qi) reinforces essence (Jing Qi) from mother - Kidney – Liver Relationship: - Liver Blood nourishes Kidney Essence - Kidney Essence promotes Liver Blood Function - Blood nourishes & moistens various tissues & organs in body - Blood: Material foundation for human mental activities (VERY IMPORTANT) - Heart dominates Shen 3 Organs Involved in Blood Circulation Heart dominates blood & vessels (Heart is center of Blood) Spleen controls blood & prevents extravasation (Checking function) Liver stores blood & regulates blood volume - Active: Liver distributes Blood to body - Asleep: Liver stores Blood	Qi is Commander of Blood - Produces Blood - Moves Blood Controls Blood Blood is the Mother of Qi - Carries Qi Nourishes & supports Qi
---	---

TCM PATHOLOGY

Qi Suffocation vs. Qi Collapse

Patterns		Qi Suffocation (Whole body congested, Closed symptoms)	Qi Collapse (Open Symptoms)
Nature		Excess (Shi)	Deficiency (Xu)
Similarities	Features	- Sudden onset - Changes quickly	
	Shared Symptoms	- Cloudy spirit - Coma	
Distinction	Disparate Symptoms	Closed symptoms: - Tightly closed hands & feet - Clenched jaw - Throat rattling	Open Symptoms: - Coolness of body (Wei Qi failure) - Ice cold hands & feet (Wei Qi failure) - Feeble breathing (Lung Qi exhaustion) - Listlessness - Absence of thirst
	Urine, BM	- Urine retention - Constipation	Incontinence (No control of holding Qi, Kidney Qi desertion)
	Sweat	No sweat, dry skin	Profuse cold sweating like pearls (Body fluid escape due to Wei Qi failure)
	Tongue	Depending on causative factor	Short tongue (Complete spleen Qi prolapse)
	Pulse	Rolling & forceful, will stop soon	Fading pulse (Heart Qi fails to move circulation)

Differentiation of Yang Xu, Qi Xu, Blood Xu, Yin Xu

Type	Yang Deficiency (Xu)	Qi Deficiency (Xu)	Blood Deficiency (Xu)	Yin Deficiency (Xu)
Relationships	Yang Xu = Cold Manifestation + Qi Xu		Blood Xu + Deficient Heat (Convert pale to Red) = Yin Xu	
Shared Symptoms	Big 5: - Pale complexion - Fatigue - Apathy - Dizziness - Spontaneous sweating		- Thin body - Dry skin - Dizziness - Insomnia - Palpitations	
Tongue	Pale, flabby tongue w/ white coat		Small Tongue	
Pulse	Weak pulse		Thready pulse	
Different Symptoms	- Chills - Cold limbs - Inability to get warm - Low body temperature - Dawn (0500) diarrhea - Sleepy - Profuse clear urine	- Loose stools - Poor Appetite - Pale face - Weak voice - Reluctance to speak	1 Yellow & 5 Pales - Complexion: Sallow or - Pale with no shining - Pale Lips - Pale Tongue w/ thin white coat - Pale Conjunctivas - Pale finger nails - Poor Memory - Scanty periods	- Fever in 5 centers (2 hands, 2 soles, epigastrium) - Malar flush (across upper cheeks) - Night sweats - Anxiety - Hot flashes - Insomnia
Tongue	Swollen, big tongue		Pale tongue	
Pulse	Slow, weak, deep pulse		Thready & Weak	

Pathogenic Wind: Yang Pathogenic Factor, Characterized by: - Upward flowing - Outward Dispersion - Rapid changes - Constant Moving - Associates itself with other pathogenic factors	External Wind	- Wind Cold - Wind Heat - Wind Dampness - Wind Dryness
	Internal Wind	- Excessive type - Liver Yang - Toxic Heat - Deficient type - Blood Deficiency - Yin Deficiency

Zang/Fu	Qi Deficiency	Qi Stagnation (Excess)	Qi Rebellious (Excess)	Blood Deficiency
Heart	YES	NO	NO	YES
Lung	YES	YES	YES	NO
Spleen	YES	NO	NO	NO
Liver	NO	YES	YES	YES
Kidney	YES	NO	NO	NO
Stomach	NO	YES	YES	NO

Hemorrhage Differentiation

Pattern	Type	Nature	Condition	Color	Tongue	Pulse
Qi Xu	Chronic	Xu	Thin	Light Red	Pale	Weak & Thin
Blood Heat	Acute	Shi	Thick	Fresh Red	Fresh Red	Rapid & Wiry
Blood Stasis	Acute or Chronic	Xu & Shi Mix	Clots	Purple	Purple	Choppy

Comparison of Body Fluid Deficiency, Blood Deficiency and Yin Deficiency				
Patterns	Similarity: Body Fluid Deficiency	Distinction		
		Dryness	Pallor	Deficient Heat
Body Fluid Xu	Less Severe	LI Fluid Deficiency • Dry mouth • Dry pharynx (throat) • Dry lips (even cracked) • Dry skin • Dry stool & Dry urine		
Blood Xu	More Severe		Liver Blood Xu Heart Blood Xu • Sallow complexion or • Pale with no shining face • Pale lips & tongue • Pale conjunctivas • Pale fingernails	
Yin Xu	Most Severe			Lung Yin Xu Heart Yin Xu Stomach Yin Xu Liver Yin Xu Kidney Yin Xu • Malar flush & Hot flashes • Feverish in 5 centers • Night sweating • Dry throat & mouth

Body Fluid ➤ Definition: Collective term for all normal fluids of body • Saliva, gastric juice, intestinal juice, liquids in joint cavities • Tears, nasal mucus, sweat, urine ➤ Formation & Distribution - Mainly related with following organs functions: • Spleen: Transportation & transformation functions • Lung: Regulating Water Passages function • Kidney: Dominating water metabolism function ➤ Function • Body fluid moistens & nourishes various parts of body ➤ Classification • Jin (Mobile, clear & thin fluid) • Distributed on skin, muscles & orifices (eyes, ears, nose, mouth) • Fills in Blood • Moistening function • Ye (Less mobile, thick & heavy) • Stored in bone & joints, bowels & viscera, brain & marrow • Nourishing function	Production of Urine: ➤ Kidney & Small Intestine Relationship of Qi & Body fluid ➤ Qi is the commander of Body Fluid • Qi promotes body fluid • Qi moves body fluid • Qi controls body fluid ➤ Body fluid is the mother of Qi • Body fluid is the carrier of Qi • Body fluid nourishes Qi Relationship of Blood & Body fluid ➤ Blood & body fluid are of same origin ➤ Sweating & Bleeding can impair body fluid
--	---

Differentiation of Yin & Yang Type Edema										
Type	Nature	Onset	Start	Skin	Location	Edema	Organs	Tongue	Tongue coat	Pulse
Yang	Acute	Abrupt	Face	Lustrous	Above waist	Swelling	LU > SP	Red	Thin white or Yellow	Slippery Rapid Floating
Yin	Chronic	Slow	Feet	Rough	Below waist	Pitting	SP > KD	Pale & Flabby	White, thick & sticky	Deep Weak

Differentiation of Qi Stagnation & Blood Stasis		
Type	Qi Stagnation	Blood Stagnation
Pain	Distention, Spasm	Pricking, Stabbing
Location	Traveling	Fixed
Time	Day, Intermittent	Night, Constant
Mass	Moving	Fixed
Color	Light Purplish	Dark Blue
Progress	Short	Long
Bleeding	No	Yes, with dark clots
Menstruation	PMS	Amenorrhea
Tongue	Normal or Light Purple	Dark Purple
Pulse	Wiry	Choppy

TCM PATHOLOGY

	Deficiency Patterns	Accumulation Patterns			
	Body Fluid Deficiency	Yang Type Edema	Yin Type Edema	Beverage (Effusion) Synd. (Yin Syndrome)	Phlegm Syndrome (Tan Syndrome)
Definition	Not enough fluid to moisten & nourish organs & tissues in body	Edema: Subcutaneous retention of fluid → puffiness of head, face, eyelids, limbs, abdomen & whole body		Various diseases from thin & clear fluid retention btwn organs, meridians & tissues.	Various diseases resulting from thick & turbid fluid retention btwn organs, meridians & tissues
Etiology (Causes)	2 ways to cause fluid deficiency: 1. Fluid Production Disorders ➢ Spleen or Stomach Xu ➢ Some diseases limit water intake 2. Profuse loss of fluid ➢ Febrile illness damage fluid (diarrhea, vomiting, polyuria, sweating, bleeding)	1. Invasion of wind upon lung → dysfunction of lung dispersion function 2. Living in a damp place, wading through water, being drenched by rain 3. Irregular food intake → Damages spleen's transformation & transformation fns ➢ [Ice cream diet: ➢ Cold, Fat, Sweet, Raw]	1. Overstrain 2. Internal injury 3. Indulgent sexual activity Leading to weakness of spleen & kidney	Caused by organ hypofunction/ impairment	1. External Pathogenic Factor Invasion 2. Emotional disorders (stress, psychological disorders) 3. Impairment of internal organs (especially spleen)
Clinical Manifestation	Initial reaction of digestive system (3 Drys): • Dry mouth • Dry pharynx (throat) • Dry cracked lips General System Impairment • Lung (Upper Burner): Dry & withered skin (without shining) • Spleen (Middle Burner): Dry & hard stool, constipation • Kidney (Lower Burner): Dry urine (scanty), even oliguria or anuria (Most important!!!) Long Term Complications • Internal Heat: Excess Lung Heat • Yin Deficiency → Deficient heat: Lung Yin Xu, even Kidney Yin Xu	• Abrupt onset of edema • Puffy face & eyelids → anasarca (extreme generalized edema) • Lustrous skin (shiny) • Scanty urine (lung not sending water down) Associated Symptoms • Aversion to cold • Fever • Aches • Sore throat (gate of body) Get water out 3 ways: 1. Skin 2. Urine 3. Stool	• Insidious onset of edema • Especially remarkable below the waist (lowest part of body) • Pitting edema • Scanty urine General Manifestation • Poor appetite • Loose stool • Distention in chest & abdomen • Fatigue • Soreness & weakness in low back & legs • Cold limbs • Aversion to cold (Kidney Qi & Yang damage) Water is Yin Pathogenic Factor	Tan Yin (GI Tract): • Splashing sound in upper abdomen (KEY) • Abdominal distention • Prefer warm to cold • Watery vomiting (Rebellious Stomach Qi) • No thirst or thirst but dislike drinking • Dizziness, anorexia • White tongue coating • Slippery Pulse Xuan Yin (Chest Cavity): • Chest/hypochond. pain • Aggravated by cough, brings up sputum • Even breath & move upper body • Shortness of breath • White tongue coating • Deep & wiry pulse Yi Yin (Limbs): • Edema, Pain, heaviness in limbs (extremities) • Fever & aversion to cold • No sweating • White tongue coating • Wiry & tight pulse Zhi Yin(Above Diaphragm) • Cough, asthma, dyspnea • Foam-like sputum • Fullness in chest • Inability to lie flat • Repeated recurrences • White & sticky coating • Wiry & tight pulse	Phlegm retained in Lung: • Cough & asthma • Bring up viscous & turbid sputum Phlegm accumulation in Spleen & Stomach: • Distention in abdomen • Poor appetite • Nausea or vomiting out phlegm Phlegm impairing Liver • Vertigo • Plum Pit Qi (throat) • Numbness in limbs • Apoplexy (stroke) • Nodes & masses Phlegm misting Heart: • Mental confusion • Depressive or mania disorders • Schizophrenia (separation of essence & spirit)
Tongue	Dry & red	Thin white or yellow coat	Pale, flabby tongue White, moist coat		Sticky tongue coating
Pulse	Rapid ¹ & thready ² 1. Fluid Xu generates heat 2. Not enough H ₂ O	Floating ¹ or slippery ² & rapid 1. External pathogenic Invasion (EPI) 2. Damp (Very Important)	Deep & weak pulse		Slippery or rolling pulse
Treatment Principles	• Nourish Yin • Replenish fluid	• Disperse Lung • Remove retained liquid	• Warm Yang • Remove retained liquid	• Warm Yang • Dissolve beverage in body	• Strengthen spleen (Very Important!) • Resolve phlegm
Therapeutics	Herbs: Zeng Ye Tang • Scrophularia • Ophiopogon • Raw Rehmannia Acupuncture: • Ren 23, 17, 12, 6 • Points under tongue • Jin Jin (L) • Yu Ye (R) Drink Water! IV therapy	Herbs: Ma Huang Lian Qiao Chi Xiao Dou Tang • Ephedra (Ma Huang) • Gypsum, Fresh ginger • Licorice, Chinese date Acupuncture: • LI 4, 6, 7 • SP 9 • UB 39 Aduki Beans: Good detox!	Herbs: Ji Sheng Qi Wan • White atractylodes • Poria, Polyporus • Alisma, Cinnamon twig • Plantago seed • Phytolacca root • Cooked rehmannia Acupuncture: • UB 20, 23, REN 4, 9 • KD 7, ST 36	Herbs: Ling Gui Zhu Gan Tang • Poria, cinnamon twig • White atracylodes • Licorice Acupuncture: • ST 36, 40 • SP 6, 9, REN 9	Herbs: Er Chen Tang • Pinellia tuber • Citrus peel • Poria, Licorice Acupuncture • ST 36, 40 • SP 6, P 7

TCM PATHOLOGY

Lung Disorders				
	Deficiency Type		Excess Type	
	Lung Qi Deficiency	Lung Yin Deficiency	Lung Pathogenic Cold Invasion	Lung Pathogenic Heat Invasion
Definition	Manifestation of Lung Qi hypofunction	Lung Yin fails to nourish Lung → Produces deficient fire on interior	Pathogenic Cold invades body & accumulates in Lung	- Pathogenic Heat invades body & accumulates in Lung, or - Pathogenic Cold accumulates in Lung & transforms into Heat
Etiology (Causes)	- Chronic cough or asthma → Damages Lung Qi - Insufficiency of Qi production	- Prolonged cough → injures Lung Yin - Pathogenic factors attack lung - Heat type diseases consume body fluid which infect lung yin	- If complicated w/ exterior syndrome, known as Wind Cold type of external syndrome - If no exterior symptoms & signs → Diagnosed as invasion of lung by Pathogenic Cold	- If complicated w/ exterior syndrome, known as Wind Heat type of external syndrome - If no exterior symptoms & signs → Diagnosed as invasion of lung by Pathogenic Heat
Clinical Manifestation	Core Symptoms & Signs - Weak, feeble cough or asthma (Qi deficiency) - Shortness of breath, worse with exertion (Pulmonary function) - Spontaneous sweating (Lung Qi → Wei Qi) Big 5 (Qi Deficiency) - Pale Face - Fatigue (Most important) - Spontaneous sweating General Manifestations - Dyspnea (difficulty breathing) - Tachypnea (rapid breathing) - Hypopnea (shallow breathing) - Hyperpnea (deep breathing) - Apnea (absence of breathing) - Soft & weak voice - Aversion to cold - Frequently catching cold	Core Symptoms & Signs - Dry Cough (Non-productive cough – no body fluid) - Cough with small amount of sticky or blood-tinged sputum - Afternoon fever General Manifestations - Dry mouth & throat - Malar flush - Night sweating - Heat sensation in the 5 centers (2 hands, 2 soles, epigastrium)	Core Symptoms & Signs - Spasmodic cough - Thin & white sputum - Aversion to cold (Feel cold only) - Fever & chills [Wind Cold External pattern: Chills > Fever] General Manifestations - Asthma (wheezing) - Absence of thirst - Runny nose with clear mucus - Headache & body aches (caused by cold → Nature of cold is contraction)	Core Symptoms & Signs - Productive Cough - Yellow sticky sputum - Fever only - Fever > Chills [Wind Heat External Pattern: Fever > Chills] General Manifestations - Asthma - Thirst - Sore Throat - Aversion to heat - Chest pain - Yellow purulent sputum w/blood - Constipation - Concentrated urine
Prognosis & Complications	- Wind Cold/Wind Heat (Wei Qi Xu) → EPF Infection - Lung & Heart Qi Xu → Heart Blood Stasis (Pulmonary heart disease (R) Ventricular) - Lung & Spleen Qi Xu (Digestive Problems) → Damp Phlegm accumulations - Lung & Kidney Qi Xu → Kidney fails to receive/grasp Qi All diseases → Last stage affects brain condition: - Phlegm misting the mind (Pulmonary encephalopathy) Differentiation: - Spleen Qi Xu → Phlegm - Heart Qi Xu → SOB - Kidney Qi Xu → Asthma	- Lung Qi & Yin Xu - Lung & Stomach Yin Xu (Son & Mother Relationship) (Metal & Earth) - Lung & Kidney Yin Xu [Most Important! → See often in clinic!] (Mother & Son Relationship) (Metal & Water) Differentiation: - Lung Yin Xu - Lung Heat - Lung Dryness	- Curable - Transforming to Lung Heat - Lung Damp & Phlegm - Lung Qi Xu	- Curable - Body Fluid Deficiency 6 Symptoms: - Dry Lips - Dry Mouth - Dry Pharynx - Dry Skin - Dry Stool - Dry Urine - Heat affecting pericardium → Affects mental status - Lung Yin Xu - Dry Cough - Night Sweat - Afternoon fever - Long Term: Yin Damaged
Tongue	Pale tongue Thin white coating	Dry red tongue w/ mirror coating	White tongue coating	Yellow coating on tongue
Pulse	Weak Pulse	Rapid & thready pulse	Tight pulse	Lung Heat: Rapid Wind Heat: Floating, rapid
Treatment Principles	Reinforce Lung Qi [Tonify Earth (Spleen) to Promote Metal (Lung)]	- Nourish Lung Yin - Prevent Kidney Yin Deficiency (Kidney yin most important → water & metal relationship)	- Disperse Lung - Eliminate Pathogenic Cold - Reinforce Wei Qi during healthy time	- Disperse Lung - Eliminate Heat
Therapeutics	Herbs: Reinforcing Lung Qi Formula - Liu Jun Zi Tang - Yu Ping Feng San Acupuncture - UB 13, UB 43, LU 1, LU 9, ST 36 Nutrition - Root vegetables - Yams - Regular sweating	Herbs: Nourishing Lung Yin Formula - Bai He Gu Jin Tang Acupuncture - LU 6, LU 9, LU 10, UB 13, UB 43, SP 6, K 3	Herbs: Eliminating Lung Cold Formula - Xiao Qing Long Tang Acupuncture: - LU 7, LI 4, LI 20, UB 12, GB 20	Herbs: Eliminating Lung Heat Formula - Ma Xing Shi Gan Tang - Wei Jing Tang Acupuncture: - LU 5, LU 10, LI 11, DU 14, SJ 5 Nutrition & Lifestyle: - Juice diet & Liquids - Vegetables - Regular gentle exercise (open the lungs)

TCM PATHOLOGY

Lung Disorders					
	Lung Invasion by Pathogenic Dryness	Retention of Phlegm Damp in Lung	Effusion in Chest & Costal Region	Damp Heat in Large Intestine	Consumption of Fluid in Large Intestine
Etiology (Causes)	- Pathogenic dryness invades body & consumes Lung Yin - Pathogenic Wind Heat damages Body Fluid & transforms into dryness	- Frequent attacks of cough following exposure to exogenous pathogenic wind, cold & damp - Prolonged cough & asthma disturbing Lung's fluid distribution, which accumulates to become sputum - Dysfunction of spleen's transportation function → Formation of phlegm damp	- Associated with Pathogenic Beverage (Yin Syndrome) accumulating in membrane that covers Lung & lines inside of chest cavity - External pathogenic factors invading Lung directly - Complications from severe internal illness (cancer) - Impaired internal organs (Lung, Spleen, Kidney)	- Often occurs in summer & autumn when pathogenic summer heat, damp & toxic heat invade intestine & stomach & causes incapability of LI to transmit - Irregular food intake - Excessive eating of raw and cold food - Intake of unclean food These factors may injure Spleen, Stomach & Intestines	- Often occurs in elderly - Women after delivery of child or menopause - Late stage of febrile disease when there is consumption of body fluid - Drugs (pain medication & sleeping pills)
Clinical Manifestation	Core Symptoms & Signs - Dry cough with little sputum - Sputum too sticky to cough out - Dry nose & throat (upper airway) 5 Upper Respiratory Tract Dryness: - Dry Cough - Dry nose - Dry throat - Dry mucus - Dry upper airway General Manifestations Severe Case: - Sputum w/ blood - Nose bleeding - Chest pain - No/scanty sweating	Core Symptoms & Signs - Chronic productive cough - Profuse white frothy/sticky sputum - Sputum is easy to cough out General Manifestations - Gurgling w/sputum in chest - Stiffness & fullness in chest - Asthma, dyspnea, wheezing Important: Lung: Phlegm Container Spleen: Phlegm Resource (Produces Phlegm)	Core Symptoms & Signs - Sharp Chest Pain (Pleuritic) - Pain may spread to shoulder or back - To ease chest pain, patient may lay on affected side to limit movement of chest wall - In some cases, pleuritic pain may be fairly constant, dull ache - Pain worsens with breathing in or coughing	Core Symptoms & Signs - Abdominal pain - Tenesmus (anal spasms) Blood & mucus in stools General Manifestations - Acute, sudden & frequent diarrhea - Yellow, watery, viscous stool - Disgusting odor - Burning sensation of anus - Scanty, deep yellow urine - Possible fever, restlessness - Thirst, nausea, vomiting	Core Symptoms & Signs - Constipation - Dry & hard stools - Bowel movements less frequent than normal or have difficulty passing stools (< 3 stool/week) or longer interval (3-5 days or 7-8 days) General Manifestations - Aversion to heat - Foul breath - Bitter taste - Red face & eyes - Abdominal distention - Scanty, dark urine - Restlessness & irritability
Prognosis & Complications	- Body Fluid Deficiency - Lung Yin Deficiency - Large Intestine Fluid Deficiency	- Acute Lung Heat or Cold Attack - Damp Phlegm damaging Spleen - Lung, Spleen, even Kidney Deficiency - Yin Type Edema (Right ventricular heart failure)	- Lung Qi & Yin Xu - Heart & Kidney Yang Xu - Sudden Qi Collapse	- Body Fluid Xu - Acute Qi Collapse - Spleen Qi Deficiency	- Excessive Heat of Lung, Heart, Stomach, Liver & Kidney - Deficient Heat of Lung, Heart, Stomach, Liver & Kidney
Tongue	Dry w/ thin coating	Pale w/ white sticky coat	White/yellow sticky coat	Yellow sticky tongue coat	Red tongue Yellow rough coat
Pulse	Rapid & thready pulse	Wiry & slippery pulse	Wiry & slippery pulse	Rolling & rapid pulse or Soft (weak) & rapid	Thready pulse
Treatment Principles	- Clear Lung - Moisten Dryness	- Eliminating Damp - Transform Phlegm - Clearing pathogenic heat or cold - Reinforce Spleen (Resource of Phlegm)	Warm Yang to dissolve beverage or effusion in body	- Clear Damp Heat in Large Intestine - Reinforce Spleen	Moisten intestines to promote bowel movement
Therapeutics	Herbs: Moistening Lung Dryness Formula - Qing Zao Jiu Fei Tang Acupuncture: - Treatments for Lung Cold & Lung Heat Nutrition & Lifestyle: - Water & Fruit - Steamed pear (yin tonic) w/ rock sugar (moistening) - Hiking/outdoor activity	Herbs: Transforming Lung Damp Phlegm Formula - Qing Fei Hua Tan Wan Acupuncture: - UB 13, UB 20, LU 9, SP 3, ST 40, LI 4, Ding Chuan	Herbs: Ling Gui Zhu Gan Tang Acupuncture: ST 36, ST 40, SP 6, SP 9, REN 9	Herbs: Eliminating Damp Heat of Intestine Formula - Bai Tou Weng Tang - Ge Gen Qi Lian Tang Acupuncture: - LI 4, ST 36, ST 40, LI 11 - ST 25 (Front Mu of LI) - ST 37 (Lower He Se of LI)	Herbs: Moisten intestines formula - Ma Zi Ren Wan Acupuncture: - LI 4, LI 11, SP 14, ST 37, UB 25 (Back Shu of LI) Nutrition & Lifestyle: - Exercise - Drink fluid - High fiber diet - Healthy oils - Peaceful mind

TCM PATHOLOGY

Lung Deficient Patterns						
Type	Exist	Nature	Respiratory Characteristics	General Characteristics	Tongue	Pulse
Lung Qi Xu	Yes	Yin Pattern Cold Type	Weak, Productive Cough Weak asthma	Big 5 Spontaneous Sweat	Thin white Flabby	Weak
Lung Yang Xu	No	Lung is in highest Yang position. Instead of Lung Yang Xu, the Kidney fails to receive Qi.				
Lung Blood Xu	No	Blood formation is in Lung. Instead of Lung Blood Xu, see more Liver & Heart Blood Xu.				
Lung Yin Xu	Yes	Yang Pattern Heat Type	Dry, Non-productive Cough Viscous Sputum	Deficient Heat Low-Grade Afternoon Fever	Mirror Red, small	Thready Rapid

Differentiation of Lung Cold & Wind Cold										
Type	Classification	Core Symptoms	Aversion to Cold	Fever	Cough	Asthma	Body Ache	Sneezing	Pulse	Tongue
Lung Cold	Interior	Productive Cough	Only	Slight Only	Yes	Yes	Rare	No	Tight	White
Wind Cold	Exterior	Chills & Fever	Chills > Fever	Chills > Fever	Few	No	Yes	Yes	Floating Tense	Thin White

Differentiation of Lung Heat & Wind Heat										
Type	Classification	Core Symptoms	Aversion to Cold	Fever	Cough	Asthma	Sore Throat	Constipation	Pulse	Tongue
Lung Heat	Interior	Productive Cough	No	Only ever High	Yes	Yes	Rare	Yes	Rapid	Yellow coat
Wind Heat	Exterior	Chills & Fever	Fever > Chills	Fever > Chills	Few	No	Yes	Rare	Floating Rapid	Thin Yellow

Differentiation of Lung Heat & Lung Cold										
Type	Cough	Aversion to Cold	Fever	Phlegm	Thirst	Aches	Sore Throat	Constipation	Pulse	Tongue
Lung Heat	Violent Cough	No	Only ever High	Yellow	Yes	No	Yes	Yes	Rapid	Yellow coat
Lung Cold	Spasmodic Cough	Yes	No	White	No	Yes	No	No	Tight	White coat

Phlegm Classification						
Type	Heat Phlegm	Cold Phlegm	Damp Phlegm	Dry Phlegm	Wind Phlegm	
Symptoms	- Expectoration of yellow, sticky phlegm - Red Face - Dry mouth & lips - Thirst - Constipation - Restlessness - Delirium, even madness	- Expectoration of white, sticky phlegm - Cold feeling in limbs & back - Nausea	- Expectoration of very profuse white & sticky phlegm - No appetite - No thirst - Stiffness of chest & epigastrium	- Dry & Sticky sputum - Difficult to cough out sputum - Sputum mixed w/ blood - Dry nose & throat - Constipation	- Dizziness - Nausea - Vomiting - Numbness of limbs - Coughing of phlegm - Rattling sound in throat - Aphasia	
Tongue	Red tongue Sticky yellow coating	Pale tongue White sticky coating	Sticky tongue coating	Dry tongue		
Pulse	Rapid Slippery	Deep, slippery, slow	Slippery	Rapid		
Effects on Zang Fu	Lung (Lung infection) Heart (Phlegm misting Heart)	Spleen & Stomach Lung patterns (arthritis)	Spleen & Lung (Food allergies)	Lung (Dryness in Autumn)	Liver (Wind Stroke)	

Differentiation of Lung Effusion & Phlegm									
Type	Location	Cough	Sputum	Chest Pain	Sick Side	Body movement	Shortness of Breath (SOB)	Tongue	Pulse
Lung Effusion	Outside Lung	Non-Productive	Rare	Sharp Pain	Single Side	Restricted	Very much	Thin coating	Wiry & Slippery
Lung Phlegm	Inside Lung	Productive	Profuse mucus	Dull Pain	General spread	Free	Very	Thick, Greasy coating	Slippery

Differentiation of Large Intestine Damp Heat & Spleen Qi Deficiency									
Type	Onset	Bowel Movement	Tenesmus	Stools	Mucus & Blood	Cramping	Condition	Tongue	Pulse
LI Damp Heat	Acute	Excessive Diarrhea	Yes	Yellow & watery	Yes	Yes	Excessive Heat	Yellow greasy coat	Rapid Rolling
Spleen Qi Xu	Chronic	Loose Stools	None	Apart, pieces	None	None	Big 5	Pale, flabby body	Weak

Differentiation of Warm & Cool Types of Dryness											
Category	Season	Dry Cough	Sputum	Blood in Sputum	Dry Throat	Dry Nose	Thirst	Fever	Chills	Tongue	Pulse
Warm type of Dryness (Wen Zao)	Summer to Autumn	More frequent	Little & very sticky	Yes	Yes	Rare	Yes	Mild	Rare	Yellow Dry Coating	Rapid
Cool type of Dryness (Liang Zao)	Autumn to Winter	Less frequent	Sticky & hard to bring out	None	Rare	Yes	Rare	Rare	Mild	White Dry Coating	Thready

Differentiation of Lung Yin Xu, Lung Dryness & Lung Heat											
Type	Nature	Season	Cough	Sputum	Blood	Sweat	Fever	Tongue	Pulse	EPF	
Lung Yin Xu	Xu	All	Non-Productive	Little	Dark Red	Night	Afternoon	Mirror	Rapid Thready	No	
Lung Dryness	Shi	Autumn	Non-Productive	Sticky	Fresh Red	No	Rare	Dry	Thready	Yes	
Lung Heat	Shi	Spring	Productive	Yellow	Rusty Red	Yes	Yes	Yellow coat	Rapid Strong	Yes	

Differentiation of Dryness between Lung & Body Fluid (Most Body Fluid is in digestive system)			
System	Lung Dryness (5 Dry)	Body Fluid Dryness (6 Dry)	System
Respiratory System	- Cough - Dry nose - Dry throat (pharynx) - Mucus - Upper Airway	- Dry Lips - Dry Mouth - Dry Pharynx	Digestive System
		- Dry Skin - Dry Stool - Dry Urine (Scanty)	Multiple Systems

Lung Qi Xu Prognosis & Complications					
Lung Qi Xu →	Wind cold/Wind Heat (Wei Qi Xu)	→	EPF Infection	→	All diseases: • Last stage affects brain condition • Phlegm misting the mind • Pulmonary encephalopathy
	Lung & Heart Qi Xu	→	Heart Blood Stasis (Pulmonary heart disease → Right ventricular)		
	Lung (Phlegm container) + Spleen (Phlegm resource) Xu (Digestive problems)	→	Damp phlegm accumulations		
	Lung & Kidney Qi Xu	→	Kidney fails to receive/grasp Qi		

Clinical Pattern (Constipation)	
Syndrome	Treatment Principle
Heat accumulation	Promote Fluid to clear Heat
Qi Stagnation	Move Qi
Yin & Blood Deficiency	Nourish Blood & Yin
Qi & Yang Deficiency	Reinforce Qi & Yang

Differentiation of Wind Heat & Wind Cold	
Wind Heat	Wind Cold
Exterior	Exterior
Aversion to Heat	Aversion to Cold
Fever > Chills	Chills > Fever
Sore Throat	Body Aches

TCM PATHOLOGY

Liver Pattern Identification			
	Liver Deficiency Patterns		Liver Excess Patterns
	Liver Blood Deficiency	Liver Yin Deficiency	Liver Qi Stagnation
Etiology (Causes)	- Hemopoiesic impairment caused by deficiency of SP & KD (main source of blood) - Chronic diseases injure blood. - Prolonged depression of LV Qi may consume LV Blood and loss of blood also damages LV's ability to store blood & vice versa	- Impairment & deficiency of liver yin & fluid - Results from emotional disharmonies & depression of Qi, which transform into fire - Liver disorders & febrile disease, which injures liver yin	- Failure of liver to diffuse Qi (Maintain free flow of Qi) - Excessive & harmful Qi is depressed & stagnated in liver - Usually results from emotional disharmony (depression, frustration, irritability, anger or other pathogenic factors attacking liver)
Clinical Manifestation	Core Symptoms & Signs - Dry eyes - Hypochondriac pain (dull ache) - General Blood Xu (1 yellow, 5 pales) Liver Manifestation - Dizziness, Tinnitus - Sallow complexion - Pale & brittle nails - Insomnia, excessive dreaming Eye Manifestation - Eye Dryness - Visual field spots (Flowery vision) - Blurry vision - Night blindness (bird vision) Tendon Manifestation - Weakness in limbs - Muscle numbness - Rigidity & stiffness in joints - Tremors (shaking, wind) Chong & Ren channel (Sexual) - Men: Insufficient blood supply to prostate → Ejaculation problems (Insufficient prostate fluid) - Women: Scanty, light-colored menstrual flow, amenorrhea, infertility	Core Symptoms & Signs - Impaired eyesight - Hypochondriac pain - Deficient heat General Manifestation - Dizziness - Tinnitus - Flushed face - Hypochondriac face Eye Manifestation - Eye dryness - Blurry vision - Flying flies, Floaters - Halos around lights - Blind spots (more severe) Yin Xu Manifestation - Fever in 5 centers (palms, soles, epigastrium) - Afternoon fever - Night sweating - Dry throat & mouth - Dry skin - Mild Constipation (intestinal dryness)	Core Symptoms & Signs - Mental: Depression, easily lose temper (Note: NOT anxiety, irritability) - Physical: Wandering & migrating hypochondriac pain - Energetically: Wiry pulse, most remarkable in Left hand General Manifestation - Mental: Depression, Frustration, Unhappy, Stressed - Physical: - Hypochondriac Pain - Discomfort in chest area (Back of breast bone) - Sighing, Plum Pit Qi (WM: Globus Sensation) Stomach Manifestation - Anorexia, Poor digestion - Nausea, Belching - Sour regurgitation & vomiting Spleen Manifestation - Epigastric pain & distention - Borborygmus, loose stools Gallbladder Manifestation - Jaundice, bitter taste Sexual Manifestation - Female: Premenstrual signs, irregular menstruation (most important → Liver controls release of eggs), Distention & soreness of lower abdomen & breasts, amenorrhea, infertility - Male: Premature ejaculation, Erectile Dysfunction
Prognosis & Complications	- Heart Blood Xu → General Blood Xu - Liver Yin Xu - Kidney Essence Xu	- Kidney Yin Xu (interrelated) - Liver Yang Hyperactivity	Liver Qi Stagnation → Liver Heat → Liver Fire
Tongue	Pale tongue White coating	- Small, dry red - Coat: thin, none, geographic	Normal or purplish Ready to change
Pulse	Wiry & Thready (Weak & small)	Wiry, Thready, Rapid	Wiry (Especially on Left side)
Treatment Principles	- Nourish blood - Strengthen liver function to store blood	- Tonify Liver Yin to reduce deficient heat - LV Yin & KD Essence are mutually engendering → Treatment usually includes LV & KD together	- Invigorate Liver Qi - Disperse stagnation
Therapeutics	Herbs: - Bu Gan Tang - Dang Gui - Bai Shao - Chuan Xiong - Shen Di Huang - Suan Zao Ren - Mu Gua - Zhi Gan Cao Acupuncture: - ST 36, UB 20, LV 3, UB 18, GB 37, SP 6 Lifestyle: - Vegan diet can cause Liver Blood Xu and Blood Xu	Herbs: - Yi Guang Jian - Gou Qi Zi (lyceum) - Shen Di Huang (raw rehmannia) - Sha Shen (Glehnia) - Mai Meng Dong (Ophiopogon) - Dang Gui (angelica) - Chuan Lian Zi (chianaberry) Acupuncture: - UB 18, UB 23, KD 3, LV 8, SP 6 Lifestyle: - Salmon, Fish oil	Herbs: - Free & Easy (Xiao Yao San) - Chai Hu (Bupleurum) - Dang Gui (Angelica) - Bai Shao (White peony) - Bai Zhu (Astractylodes) - Fu Ling (Poria), Bo He (Mint) - Sheng Jiang (Ginger) - Zhi Gan Cao (Licorice) Acupuncture: - LV-3, LI-4 (4 Gates) - LV-14, GB-34 & SJ-5 Lifestyle: - Avoid sugar, alcohol, coffee - Regular exercise (walk, run, yoga, swimming [reduces muscle tone])

TCM PATHOLOGY

Liver Pattern Identification			
	Liver Excess Patterns	Liver Intermingled Deficiency & Excess Patterns	
	Liver Fire Flaming Up	Liver Yang Hyperactivity	Liver Wind Stirring
Etiology (Causes)	• Rebellion of Liver Qi & Fire caused by emotional disturbance. • Depression of Liver Qi transforms into Liver fire • Pathogenic heat accumulates in internal body	• Water not nourishing Wood → Liver yang becomes hyperactive • Mainly due to LV Yin & KD Yin deficiency failing to control LV Yang • Anger & anxiety cause stagnation of Qi & fire → consume Yin & fluid → Yin/Yang imbalance	• Rapid changes & constant movement • 4 kinds of stirring of LV Wind • Utmost Heat → Wind • Deficient Yin → Wind • Deficient Blood → Wind • Hyperactive LV Yang → Wind (most common) • Due to deficiency of LV & KD Yin LV Yang rebelling & rising → stirs up LV Wind internally
Clinical Manifestation	Core Symptoms & Signs 1. Headache 2. Anger, violent tendencies 3. Redness (red eyes, face, complexion) Mental Manifestation • Anger (KEY for Liver Fire) • Anxiety, Panic • Nightmares, insomnia • Violent behavior Digestive Manifestation • Craving alcohol, sugar, smoking, drugs, eating disorders, regurgitation (too much energy in digestion) • Constipation • Hematemesis • Epistaxis (nosebleeds) Sexual Manifestation • Increased sexual desire • Sexual indiscretions • Violent sex	Core Symptoms & Signs 1. Irritability 2. Dizziness 3. Lower back pain & weakness of knees General Manifestation <u>Upper Body</u> Physical: • Dizziness (vertigo), headache • Tinnitus • Distention & pain in eyes • Flushed complexion • Red eyes Mental: • Irritability • Anger • Palpitations (tachycardia) • Insomnia, excessive dreaming <u>Lower Body (Kidney Xu Symptoms)</u> • Lower Back Pain • Weakness of Knees • High Sexual Desire • Poor (Dry) Sexual Function	Core Symptoms & Signs 1. Dizziness 2. Shaking, tremors 3. Sudden fall 4. Loss of consciousness General Manifestation • Headache w/ shaking movement • Rigidity & stiffness in neck • Limb tremors • Numbness in hands & feet • Speech defect • Sudden fall • Coma • Gurgling w/ sputum in throat • Hemiplegia (half body paralyzed) • Deviation of mouth & eyes
Prognosis & Complications	• Liver Yin Xu & Liver Blood Xu • Stomach Fire (Bleeding gums, heavy appetite, constipation, bad breath, eating too much) • Heart Fire (Mentally crazy, insomnia, busy mind)	• Kidney Yin Xu • Liver Wind	• Yin/Yang Separation → Death • Blood Stagnation due to Qi Deficiency → Paralysis • Multiple organ impairment (LV, KD, HT)
Tongue	Red tongue w/ yellow coating • Thick coat: More Liver Fire • Thin coat: Less Liver Fire	Red w/ yellow or no coat	Red w/ yellow sticky coating
Pulse	Wiry & Rapid	Wiry & strong or Thready & rapid	Strong, Wiry
Treatment Principles	• Clear Liver, Purge Liver Fire (Reducing Method) → Intends to make liver clear & pass heat & fire from urine & stools	• Subdue Liver Yang • Nourish LV & KD Yin	• Calm Liver • Extinguish wind radically by fostering yin and subduing yang
Therapeutics	Herbs: Long Dan Xie Gan Tang • Long Dan Cao (Gentiana) • Huang Qin (Scutellaria) • Zhi Zi (Gardenia fruit) • Mu tong (Akebia) • Sheng Di Huang (Raw rehmannia) • Chen Qian Zi (plantago seed) • Ze Xie (Alisma) • Dang Gui (Angelica) • Chai Hu (Bupleurum) • Gan Cao (Licorice) Acupuncture: • LV 2, GB 20, UB2, Tai Yang Lifestyle: Avoid alcohol, coffee, sugar, drugs (speed up negative process)	Herbs: Tian Ma Gou Teng Yin • Tian Ma (gastrodia tuber) • Gou Teng (uncaria) • Shi Jue Ming (sea-ear shell) • Sang Ji Sheng (mulberry mistletoe) • Du Zhong (eucommia bark) • Chuan Niu Xi (cyathula root) • Zhi Zi (gardenia fruit) • Huang Qin (scutellaria) • Yin Mu Cao (leonus) • Ye Jiao Teng (fleece flower) • Fu Ling (poria) Acupuncture: • LV 3, LV 2, GB 20, DU 20	Herbs: Zhen Gan Xi Feng Tang (Extinguish Liver Wind Formula) • Huan Niu Xi (achyranthes) – 15 • Xuan Shen (scrophularia) – 12 • Tian Men Dong (asparagus) – 9 • Bai Shao (white peony) – 12 • Yin Chen Hao (capillaria) – 6 • Chuan Lian Zi (chinaberry) – 6 • Mai Ya (malt) – 6 • Gan Cao (licorice) – 6 • Dai Zhe Shi (hematite) – 15 • Long Gu (dragon's bone) – 15 • Mu Li (oyster shell) – 15 • Gui Ban (tortoise Plastron) – 15 • Sheng Di Huang (raw rehmannia) – 15 Acupuncture: • GB 20, LV 3, DU 16, DU 14, LI 4, KD 1, DU 26

TCM PATHOLOGY

Liver Excess Patterns			
	Cold Stagnation in Liver Channel (AKA Small Intestine Qi Stagnation)	Damp Heat in Liver & Gallbladder	GB Depression & Phlegm Disturbance
Etiology (Causes)	Manifestation of pathogenic cold accumulated in liver channels caused by: - Exogenous pathogenic cold invading body - Depression of Liver Qi	Manifestation of damp heat accumulating in Liver & Gallbladder caused by: - Pathogenic damp & heat invading body - Eating too much greasy & sweet food - Dysfunction of spleen & stomach produces damp internally Damp accumulates → transforms into heat	Manifestation of failure in gallbladder's excreting & discharging function. - Emotional frustration/depression → Liver Qi Stagnation → Liver Fire → Burns Fluid → Forms Phlegm - Phlegm heat harasses relationship of GB & Heart or GB & Stomach
Clinical Manifestation	Core Symptoms & Signs - Lower abdominal cramping (males) - Referring pain to testicles & scrotum General Manifestation - Cramping in lower abdomen - Prolapsed sensation - Alleviated by warmth - Aggravated by coldness - Vertical headache (cold sensation) – Only Yin Headache	Damp Heat in Liver (Organ) Core Symptoms & Signs - Hypochondriac pain & distention (R side) - Jaundice (yellow eyes, skin & urine) **Eyes most important General Manifestation - Liver enlargement - Low grade fever - Joint pain - Loss of appetite (anorexia) - Abdominal distention - Irregular bowel movements (some diarrhea, constipation) → Too much bile! Damp Heat in GB (organ) General Manifestation - Alternating fever & chills - Jaundice (yellow sclera & mucus membranes) - Abdominal cramping referring to Right shoulder (energetically referring pain) - Murphy's sign positive during physical examination → (pain when GB pressed) - Bitter taste, Nausea - Irregular bowel movements (some constipation, NO BILE → pale stool (KEY SYMPTOM)) Damp Heat in Liver (Channel) NO JAUNDICE! Very Important! General Manifestation Males: - Eczema in scrotum w/ heavy itching - Pain & distention in testes Females: - Leucorrhea w/ yellow color & fetid odor - Vaginal itching	Core Symptoms & Signs - Cowardly mind - Insomnia - Nausea - Yellow belly (English) - Small Gallbladder (Chinese) Gallbladder → Heart (Mother/Son) - Lack of courage - Palpitation - Cowardice - Restlessness - Insomnia - Dream disturbed sleep - Can't make decisions Gallbladder → Stomach (GB overacts on ST) - Hypochondriac pain - Chest stiffness - Bitter taste - Sighing - Nausea - Dizziness, vertigo
Prognosis & Complications	- Local Qi & Blood Stagnation - Spleen Qi & Yang Xu - Infertility	- Qi & Blood Stagnation - Liver Yin Xu - Spleen Qi Xu	- Liver Qi Stagnation - Heart Shen Disturbed - Spleen & Stomach dysfunction
Tongue	White, smooth tongue coating	Red, yellow sticky coating	Coating: Yellow sticky or white greasy
Pulse	Deep, wiry, slow	Wiry, rapid (heat), slippery	Wiry, slippery
Treatment Principles	- Invigorate circulation of Qi - Disperse pathogenic cold	- Regulate liver function - Eliminate Damp Heat - Obstructive: Open up bowel movement - Hepatocellular: Promote urination	- Regulate Qi & transform phlegm - Clear GB & harmonize stomach
Therapeutics	Herbs: - Nuan Gan Jian - Dang Gui (angelica) – 9 - Gou Qi Zi (lyceum) – 9 - Xiao Hui Xiang (fennel fruit) – 9 - Rou Gui (cinnamon bark) – 6 - Wu Yao (lindera) – 15 - Chen Xiang (aquilaria) – 3 - Fu Ling (poria) – 12 - Sheng Jiang (Ginger) – 6 Acupuncture: - LV 1, LV 3, REN 6, REN 4, ST 29 Lifestyle: - Keep Warm - Avoid regular constant standing position	Herbs: - Yin Chen Hao Tang - Yin Chen Hao – 18 - Zhi Zi (gardenia fruit) – 9 - Da Huang (rhubarb) – 6 Acupuncture: - UB 18, DU 9, SI 4, GB 34, LV 3 Lifestyle: - Juice diet (orange, lemon, grape, pears, carrots, beets, sugar cane) - Ensure regular bowel movements → eliminate toxins	Herbs - Huang Lian Wen Dan Tang - Huang Lian (coptis) – 6 - Bai Xia (pinellia) – 6 - Chen Pi (citrus peel) – 9 - Fu Ling (poria) – 12 - Zhi Shi (immature bitter orange) – 9 - Zhu Ru (bamboo shavings) – 9 - Zhi Gan Cao (licorice) – 6 - Da Zao (jujube) – 5 pc - Sheng Jiang (Ginger) – 3 pc

TCM PATHOLOGY

Liver Blood Xu vs. Liver Yin Xu				
Pattern	Eyes	Characteristics	Tongue	Pulse
Liver Blood Xu	Dry eyes	Blood Xu	Pale, small, white coating	Thready
Liver Yin Xu	Impaired eyesight	Deficient Heat	Red, small, No coating	Thready & Rapid

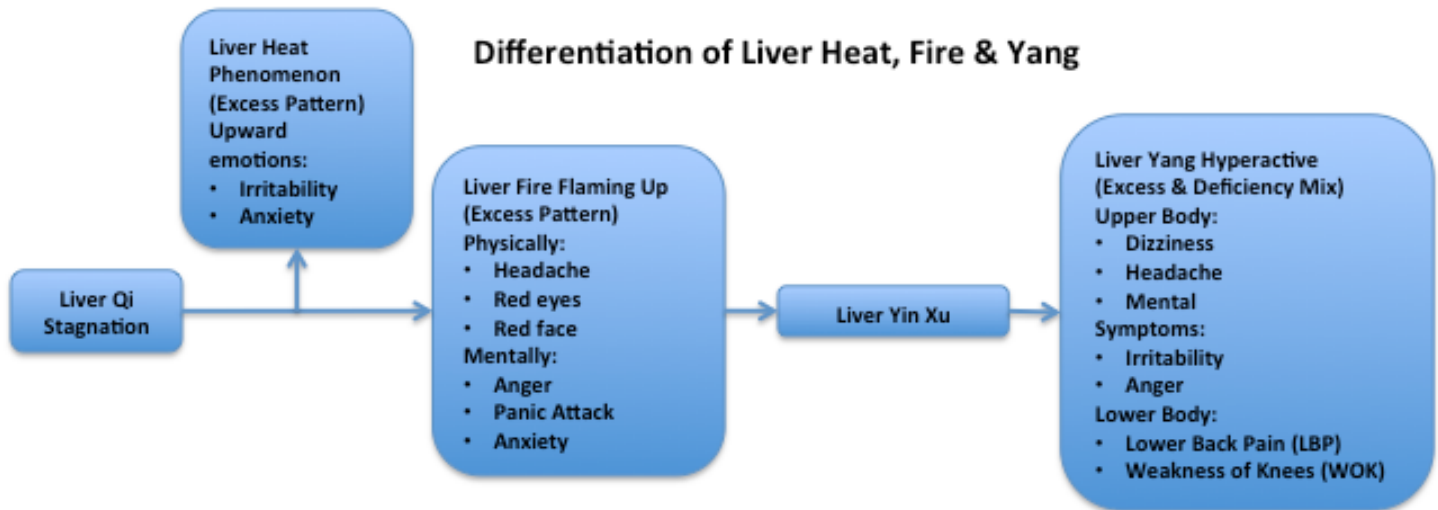

Liver Excess Differentiation					
	Liver Qi Stagnation	Liver Heat Phenomena	Liver Fire Flaming Up	Liver Yang Hyperactive	Liver Wind Stirring
Symptoms	- Depression - Hypochondriac pain	Upward Emotion: - Irritability - Anxiety	- Headache - Anger - Redness	- Dizziness - Headache - Irritability - Anger - Low Back Pain (LBP) - Weakness of Knees (WOK)	- Dizziness - Shaking - Tremor - Sudden Fall - Coma
Pulse	Wiry	Wiry, Rapid	Strong, wiry	Wiry, Thready	Wiry, Slippery
Tongue	Normal, ready to change	Light red	Red	Red	Red
Coating		Thin Yellow	Thick Yellow	Yellow or none	Greasy Yellow

Four Wind Differentiation				
Syndrome	Hyperactivity of Liver Yang Causing Wind	Extreme Heat Generating Wind	Deficient Yin Causing Wind	Deficient Blood Causing Wind
Pathogenesis	Liver yin unable to control Liver Yang → Hyperactive Yang rising causing Wind	Extreme heat burning fluids & unable to nourish sinews & vessels leading to Liver Wind	Deficiency of yin fluids unable to nourish sinews & vessels	Deficiency of Blood unable to nourish sinews & vessels
Nature	- Upper excess - Lower deficiency	Excess Heat Syndrome	Deficiency syndrome	Deficiency syndrome
Primary Signs	Irritability Dizziness, fainting Lower back pain & weakness of knees - Involuntary shaking of head - Limb tremors - Dysphasia, aphasia with stiff tongue - Sudden fainting - Unconsciousness - Hemiplegia	- High fever - Limb convulsions - Neck rigidity - Opisthotonos (tetanus) - Upward turning of eyes	- Muscular twitching - Dizziness	- Limb tremors - Muscular twitching - Limb numbness - Dizziness
Combined Signs	- Headache, Neck rigidity - Limb numbness - Floating steps	- Coma - Mania	- Feverish sensation in 5 centers (chest, palms, soles) - Tidal fever - Dry mouth & throat - Thin body	- Dizziness - Tinnitus - Pale face - Withered & brittle nails
Tongue	Red w/ white or greasy coat	Red	Red tongue w/ scanty fluids	Pale w/ white coating
Pulse	Powerful, wiry	Powerful, wiry, rapid	Wiry, thready, rapid	Thready
Western Example	Cerebrovascular accident (CVA)	Meningitis, Eczema	Parkinson's Disease	Peripheral neuropathy

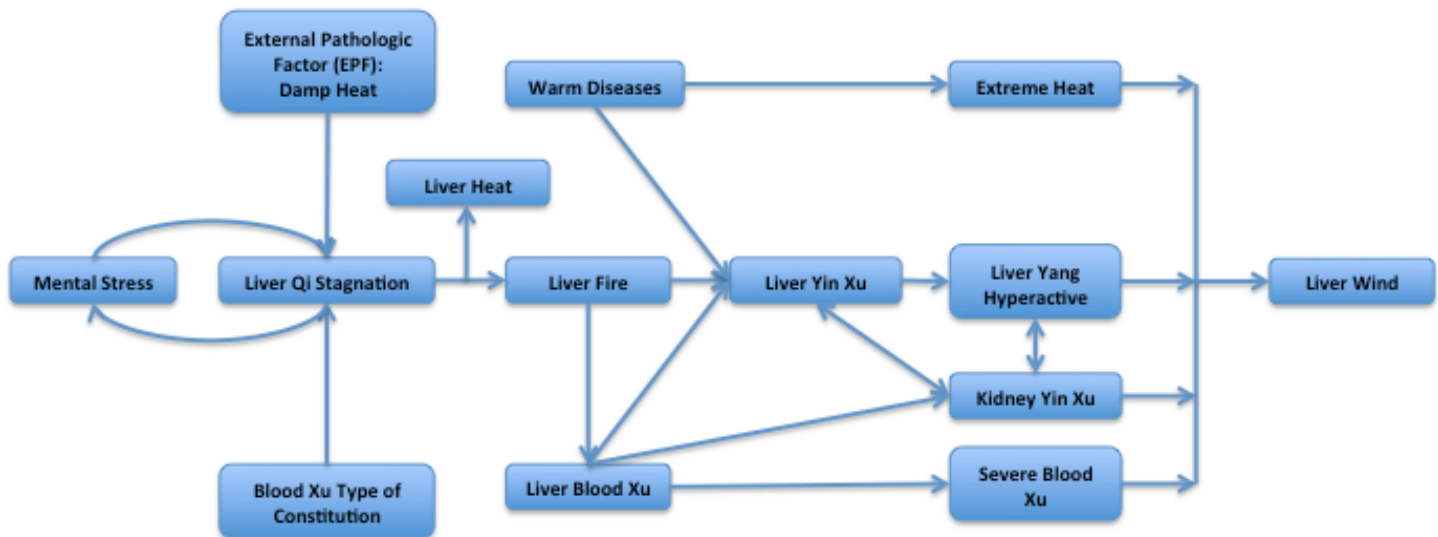

TCM Type	Bi-Medicine Type	Mechanism	Representative Diagnosis
Toxic Heat in Blood (Not related to Liver & GB)	Hemolytic Jaundice (Pre-Hepatic)	- Results from destruction of red blood cells & consequent liberation of hemoglobin into plasma. - Catabolic pathways for degradation of hemoglobin are overloaded & unconjugated bilirubin accumulates in blood.	Hemolytic anemia Malaria
Damp Heat in Liver	Hepatocellular jaundice (Intra-hepatic)	- Results from bilirubin transport into the bile due to liver cell damage. - When liver cells are damaged by viral insult, drugs or alcohol, transport of bilirubin across cell membranes may be impaired, or resulting inflammatory edema may obstruct biliary canaliculi → Bilirubin backs up & accumulates in blood.	Hepatitis Alcohol toxicity Cirrhosis
Damp Heat in Gallbladder	Obstructive jaundice (Post-Hepatic)	- Due to obstruction to passage of bile between the liver hepatocytes & duodenum. - Cholestasis leads to dark urine & pale stools → Bile does not reach intestines.	Physical obstruction of bile duct by gallstones, tumors, parasites

Yang vs. Yin Jaundice										
Type	Etiology	Organ	Color	Nature	Energy	Stool	Urination	Tongue	Coating	Pulse
Yang	EPF	LV & GB	Bright Yellow or Orange	Fever	OK	Constipation	Scanty Dark Yellow	Scarlet Red	Yellow sticky	Wiry Rapid Slippery
Yin	Internal Injury	SP & LV	Dark (Smoked Bamboo)	Cold	Fatigue	Diarrhea	Profuse Light Yellow	Pale Red	Grey Sticky	Wiry Slow Soft

Differentiation of Liver Heat, Fire & Yang

Liver Etiology

TCM PATHOLOGY

Spleen Deficient Patterns				
	Spleen Qi Deficiency	Spleen Yang Deficiency → AKA (Deficient Cold in Small Intestine)	Spleen Qi Sinking	Spleen Fails to Control Blood
Definition	- Insufficient Qi to adequately carry out SP functions - Pathological changes result from hypofunction of Spleen	Spleen Yang Xu fails to warm internal transportation & transformation → generates internal cold.	Spleen Qi Xu fails to raise Qi upward → Qi Prolapse	Spleen Qi Xu fails to hold the Blood in vessels → extravasation of blood & hemorrhage
Etiology (Causes)	- Poor nutritional diet - Irregular food intake - Over strain, stress & exhaustion - Overthinking & mental worry - Weakness after prolonged illness	- Further development of Spleen Qi Xu - Intake of excessive raw, cold, greasy & sweet food - Excessive administration of cold natured herbs (cold natured drugs → penicillin, goldenseal)	- Deficiency of spleen Qi or middle jiao Qi - Prolonged diarrhea - Over strain & stress	- Weakness after prolonged illness - Over strain & stress → Weakens spleen's function of controlling blood (unable to hold blood in vessels)
Clinical Manifestation	Core Symptoms & Signs - Poor appetite - Abdominal distention - Loose Stools (floating) General Manifestation - Poor appetite - Inability to taste - Abdominal distention - Bloating after eating - Loose stools - Floating stools - Emaciation	Core Symptoms & Signs - Loose stool (undigested food) - Dull abdominal pain (better w/ warmth & pressure) - Yin type general edema (lower part of body) Digestive Manifestation - Poor appetite - Bland taste in mouth - No thirst - Abdominal pain worse after eating - Loose stool (undigested food) Deficient Cold Manifestation 4 limbs can't get warm - Pallor, fatigue, General cold - Likes warmth & pressure Regulating Body Fluid Function - General Yin edema (pitting) - Scanty urination - Profuse dilute white leucorrhea	Core Symptoms & Signs - Bearing down sensation in abdomen - Prolapse of internal organs (uterus, anus, rectum, stomach, kidney, mitral valve, UB, brain) - General Symptoms of Spleen Qi Xu Spleen Qi Xu Symptoms - Lassitude (fatigue) → Key Sx - Dizziness - Lower voice - Shortness of breath - Spontaneous sweating - Poor appetite General Manifestation - Abdominal distention after eating - Chronic (enduring) diarrhea - Organ prolapse	Core Symptoms & Signs - Hemorrhage: GI & uterine bleeding - Spleen Qi Xu symptoms at same time Spleen Qi Xu Symptoms - Pale face - Lassitude - Dislike of speaking Hemorrhage Manifestation - Purpura - Bloody stools (usually Far Blood) - Excessive menstrual flow - Uterine bleeding (uterus too loose → no contractions) - Blood color: thin, light color - Heavy bleeding
Prognosis & Complications	All organ systems involved! Digestive system very important! - Spleen Qi Sinking - Spleen Yang Deficiency - Liver Qi Stagnation - Lung Qi Xu (Mother & Son) - Heart Blood Xu (HT & SP Xu) - Dampness - Edema - Phlegm - Spleen Fails to Control Blood - Qi & Blood Xu	- Kidney Yang Xu - Spleen Qi Sinking - Spleen fails to control Blood YANG XU → NO EMACIATION! SPLEEN → NO YIN XU!!!	- Spleen fails to control blood - Qi collapse - Spleen Yang Xu Spleen Fails to Ascend Clear Upper Jiao: - Long term, constant diarrhea Middle Jiao: - Long Term lightheadedness Lower Jiao: - Prolapse: downward direction: miscarriage, heavy menstrual bleeding, infertility, incontinence, protein uria, hematuria	- Acute: Qi Collapse (Hemorrhage Shock) - Chronic: Qi & Blood Xu - Women: Qi & Blood Xu (from bleeding every month)
Tongue	Pale w/ thin white coating	Pale, delicate w/ thin white coat	Pale w/ white coating	Pale
Pulse	Weak	Weak, deep & slow pulse	Weak & thin	Weak, thready, rapid
Treatment Principles	Reinforce Spleen Qi	Warm & reinforce Spleen Yang	Boost spleen Raise middle jiao Qi	Reinforce Qi to control blood
Therapeutics	Herbs: Liu Jun Zi Tang (Reinforcing Spleen Formula) - Ren Shen (ginseng) – 9 - Gan Cao (baked licorice) – 6 - Bai Zhu (white atractylodes) – 9 - Fu Ling (poria) – 12 - Chen Pi (citrus peel) – 6 - Ban Xia (pinellia) – 9 Acupuncture: - UB 20, ST 36, REN 12, PC 6, LV 13, SP 3 Lifestyle: - Eliminate all dairy & gluten products	Herbs: Li Zhong Tang & Si Shen Wan (Reinforcing spleen yang formula) - Ren Shen (ginseng) – 9 - Bai Zhu (white atractylodes) – 9 - Gan Jiang (dry ginger) – 9 - Gan Cao (baked licorice) – 6 - Bu Gu Zi (psoralea) – 9 - Wu Zhu Yu (evodia) – 6 - Rou Dou Kou (nutmeg) – 9 - Wu Wei Zi (schisandra) – 9 - Da Zao (jujube) – 5 pc Acupuncture: - LV 13 (Favorite), SP 3, ST 25, ST 36, REN 8, REN 12 Lifestyle: - Warm, cooked, organic food - Avoid Ice Cream Diet!	Herbs: Bu Zhong Yi Qi Tang (Raising Spleen Qi Formula) - Huang Qi (astragalus) – 15 - Ren Shen (ginseng) – 9 - Gan Xiao (baked licorice) – 6 - Bai Zhu (white atractylodes) – 9 - Dang Gui (angelica) – 9 - Sheng Ma (cimicifuga) – 6 - Chai Hu (Bupleurum) – 6 - Chen Pi (citrus peel) – 6 - Zhi Ke (bitter orange) – 9 Acupuncture: - DU 20 (best point), ST 36, REN 4, REN 6, REN 12 Lifestyle: - Regular exercise	Herbs: Gui Pi Tang - Bring Back SP! (Reinforcing Qi to control Blood) - Ren Shen (ginseng) – 9 - Long Yan Rou (Longan sril) – 9 - Huang Qi (Astragalus) – 15 - Gan Cao (baked licorice) – 6 - Bai Zhu (white atractylodes) – 9 - Dang Gui (angelica) – 9 - Mu Xiang (Saussurea) – 9 - Fu ling (poria) – 12 - Yuan Zhi (polygala) – 9 - Suan Zao Ren (ziziphus) – 9 - Sheng Jiang (fresh ginger) – 3 - Da Zao (jujube) – 5 pc Acupuncture: - ST 36, REN 4 & 12, UB 17, UB 20 Lifestyle: - Ginseng & Hen Woup

	Spleen Excess Patterns		Stomach Deficiency Pattern
	Cold Damp in Spleen	Damp Heat in Spleen & Stomach	Stomach Yin Deficiency
Definition	- Interior exuberance of cold dampness encumbering the spleen - Disturbs spleen Qi & Yang - Obstructs Middle Jiao	Accumulation of damp heat in middle jiao → disturbance of SP & ST transport functions	Insufficiency of ST Yin failing to moisten & nourish stomach (Very advanced Yin deficiency) STOMACH: NO YANG XU
Etiology (Causes)	- Excessive eating of raw & cold - Wading in water - Being caught in rain - Living & sleeping in damp place	- Exogenous pathogenic Damp Heat invasion - Excessive indulgence in acidic, warm, greasy & sweet food - Alcoholic drinking → Produces Damp Heat in Interior	- Hyperactivity of heat in stomach → Consumes stomach yin - Consumption of yin fluid by persistent pathogenic heat at late stage of febrile disease
Clinical Manifestation	General Manifestation - Fullness & distention in epigastrium & abdomen - Loss of appetite - Abdominal bloating - Heaviness of head & body - Loose, sticky stools (diarrhea) - Dirty toilet - Profuse leucorrhea - Stickiness in mouth - Absence of thirst - Thirst, but no desire to drink water - Allergies: - Dairy - Wheat - Nightshade family	Core Symptoms & Signs - Fullness & distention in epigastrium & abdomen - Loss of appetite (SP fxn ↓) - Nausea (SP fxn ↓) General Manifestation - Vomiting, Bitter taste - Stickiness in mouth - Thirst, may just want to drink a little, but not happy about it - Heaviness of body, Lassitude (fatigue) - Bright yellow face, eyes & skin (jaundice) [Liver causes, but originates from Spleen] {Not core symptom, but important} Diarrhea (loose, sticky stools) – Important! - Scanty urine Why Spleen Damp Heat causes jaundice: - SP color = Yellow, LV color = green, blue Hepatitis → food causes problems (digestive problems came first) - Most early Damp Heat from Spleen (hepatitis) → Symptoms: bloating, epigastric distention 5 Elements → SP has problems related to LV TCM: Damp Heat	Core Symptoms & Signs “Leather bottle” (Western) or “Leather Bag” (Chinese) → Stomach doesn’t have expansion capability (KEY symptom) - Hunger w/ no desire to eat (because of no expansion capability) - Dry vomiting (dry heaves) - Red, mirrored tongue General Manifestation - Anorexia (don’t want to eat) - Hunger w/ no desire to eat - Dry tongue & mouth - Retching - Constipation - Dry stools (pellets) → Not enough food into stomach - Dull pain in epigastrium - Uncomfortable sensation in stomach - Scanty urine Yin Deficiency Symptoms - Hot flashes - Night sweats 5 center fever → EMACIATION (Yang Xu → NO emaciation)
Prognosis & Complications	- Spleen Qi & Yang Xu → Damp Heat - Food allergies (dairy, wheat, nightshades) Damp Cold damages Yang	- Yin Xu [Most important!] - Liver Damp Heat - Spleen Qi Xu Damp Heat damages Yin	- Spleen Qi Xu - Kidney Yin Xu - Blood Stagnation (carcinoma) SP Qi Xu (chronic) + Diarrhea + Xu Heat = Spleen Yin Xu [in clinic only] Stomach cancer: 4 types manifestation - Cauliflower tumor - Ulceration - Leather bag/bottle (dry) - Mixture of types together
Tongue	White (cold), sticky (damp) coating	Yellow (heat), sticky (damp) coating	Dry tongue w/ no coat
Pulse	Soft	Soft & rapid (heat)	Rapid, thready
Treatment Principles	Warming Middle Jiao to resolve dampness	Eliminate Damp Heat in middle jiao	Nourish ST Yin
Therapeutics	Herbs: Wei Ling Tang (Warming Middle Jiao to resolve damp) - Ze Xie (Alisma) – 9 - Fu Ling (Poria) – 9 - Zhu Ling (polyporus) – 12 - Gui Zhi (cinnamon twig) – 6 - Bai Zhu (white atractylodes) – 9 - Cang Zhu (atractylodes) – 9 - Hou Pu (magnolia bark) – 9 - Chen Pi (citrus peel) – 9 - Gan Cao (baked licorice) – 6 - Sheng Jiang (fresh ginger) – 3 - Da Zao (jujube) – 5 pc Acupuncture: - REN 6 & 12, ST 25, 36, 37 & 40	Herbs: Gan Lu Xiao Du Dan (Eliminating Damp Heat in Middle Jiao) - Hua Shi (talc) – 20 - Yin Chen Hao (capillaris) – 15 - Mu Tong (akebia) – 10 - Huang Qin (scutellaria) – 15 - Lian Qiao (forsythia) – 10 - Chuan Bei Mu (fritillary) – 10 - She Gan (belamcanda) – 10 - Shi Chang Pu (acorus) – 10 - Huo Xiang (agastache) – 10 - Bo He (menthe) – 6 - Bai Dou Kou (cluster) – 10 Acupuncture: - UB 19 & 20, ST 36, GB 34, DU 9 Lifestyle: - Personal Hygiene (wash hands) - Avoid sharing personal items	Herbs: Sha Shen Mai Men Dong Tang (Nourishing stomach yin formula) - Bei Sha Shen (glehnia root) – 12 - Nan Sha Shen (adenophora) – 6 - Sang Ye (mulberry leaf) – 9 - Tian Hua Fen (Trichosanthes root) – 15 - Mai Men Dong (ophiopogon) – 9 - Yu Zhu (polygonatum rhizome) – 9 - Bian Dou (dolichos seed) – 9 - Gan Cao (licorice) – 6 - ST 36, UB 20 & 21, SP 6, KD 3

TCM PATHOLOGY

Stomach Excess Patterns			
	Stomach Cold	Stomach Fire	Food Retention in Stomach
Definition	Cold pathogen invading ST & manifests as cold pain in epigastrium w/ excess cold symptoms. AKA cold invading stomach.	Due to scorching exuberance of stomach fire & fail to descend	Food stagnation in Stomach (excess pattern)
Etiology (Causes)	- Invasion of exogenous pathogenic cold - Intake of excessive raw & cold in stomach	- Excessive intake of acrid, spicy, warm, greasy, or dry food → fire - Emotional stress → depression of LV Qi → LV & ST Fire - Invasion by exogenous or endogenous heat (H. Pylori → stomach ulcer)	- Irregular food intake - Voracious eating & drinking - Eating of food difficult to digest
Clinical Manifestation	Core Symptoms & Signs - Sudden epigastric pain (worse with pressure → excess, worse with cold → cold type) - Rebelling of stomach Qi (vomiting) General Manifestation - Epigastric fullness & pain - Worse on pressure (important!) - Aggravated by cold - Alleviated by warm - Reflux of clear (clear fluid comes out instead of acidic (heat)) - Hiccup - Vomiting after eating - Lack of thirst (don't want to drink, or drink warm water) - Clear drooling (salivation) - Pale/blue complexion - Cold limbs, sensation - Cold diarrhea (watery, no smell)	Core Symptoms & Signs - Burning sensation & pain in epigastric region - Excessive appetite - Constant hunger General Manifestation - Burning sensation & pain in epigastric region - Aggravated by pressure & warm - Empty & uncomfortable feeling in stomach - Thirst w/ preference for cold drinks - Voracious appetite & getting hungry easily - Sour regurgitation - Vomiting (rebellious ST Qi) - Foul breath - Swelling & pain or ulceration & bleeding of gums (gingivitis) - Constipation - Scanty yellow urine	Core Symptoms & Signs - Fullness & pain in epigastrium & abdomen - Foul belching (rebellious ST Qi) - Sour regurgitation (rebellious ST Qi) General Manifestation - Dislikes abdominal pressure (excess) - Acid regurgitation - Anorexia - Vomiting undigested food - Distention & pain → relieved by vomiting or flatulence - Hesitant bowel movement - Diarrhea w/ sensation of incomplete defecation & foul odor - Constipation w/ big, dry stools
Prognosis & Complications	- Spleen Yang Xu - Spleen Damp Cold - Damp Heat in LI (Very Important! → Cold changes to damp heat)	- Stomach Yin Xu (Very Important!) - Spleen Qi Xu - Cause 3 Fires: ST, LV, & HT - ST Fire → GI Bleeding (Far Blood)	- Stomach Fire - Acute abdominal Qi & Blood stagnation - Qi suffocation (heart attack) - WM: appendicitis, acute pancreatitis
Tongue	White, slippery coat	Red w/ yellow coating	Thick & sticky coating
Pulse	Slow & wiry, tight	Rapid, slippery	Rolling
Treatment Principles	Warm middle jiao to eliminate cold	Purging ST Fire	Invigorate stomach to aid digestion
Therapeutics	Herbs: Xiao Jian Zhong Tang (Eliminate stomach cold formula) - Yi Tang (maltose) – 30 - Gui Zhi (Cinnamon twig) – 6 - Bai Shao Yao (white peony) – 15 - Gan Cao (baked licorice) – 6 - Sheng Jiang (fresh ginger) – 3 - Dang Gui (angelica) – 9 - Huang Di (astragalus) – 15 - Da Zao (jujube) – 5 pc Acupuncture - ST 34 & 36, UB 21 - REN 12 (over middle of ST), LV 13 Lifestyle: - Amazing Ginger: Anti-viral, anti-toxic, antihistamine, treats allergies, anti-inflammatory especially for joint pain (arthritis), inhibit prostaglandin formation (inflammation), aids digestion (cook with meat & fish), good for constipation, lowers cholesterol & prevents formation of blood clots, mood enhancer → stress relief, migraine headaches, reduces toothache, fever, circulation, prevent herpes simplex breakout, improves sexual fxn - Best ginger is Hawaiian ginger	Herbs: Yu Nu Jian (Purging Stomach Fire formula) - Shi Gao (Gypsum) – 30 - Shen Di Huang (Raw rehmannia) – 9 - Mai Men Dong (ophiopogon) – 9 - Zhi Mu (anemarrhena) – 9 - Hui Niu Xi (achyranthes) – 9 - Da Huang (rhubarb) – 9 - Huang Lian (coptis) – 9 - Huang Qin (scutellaria) – 9 Acupuncture: - ST 44, LV 2, LI 11, REN 13, ST 36, UB 21, SP 6 Lifestyle: AVOID: - Yang food (meat, fat, oils & sweets) - Warm natured fruit & vegetable - Beverages: liquor, wine, coffee - Dairy: sour cream, milkshake, ice cream	Herbs: Bao He Wan (Invigorating Stomach to Aid Digestion) - Shan Zha (Crataegus) – 30 (Cardiac herb) - Shen Qu (medicated leaven) – 9 - Lai Fu Zi (raphanus seed) – 12 - Bai Xia (pinellia) – 9 - Chen Pi (citrus peel) – 6 - Fu Ling (poria) – 9 - Lian Qiao (forsythia) – 9 - Zhi Shi (immature bitter orange) – 9 - Hou Po (magnolia bark) – 9 - Bing Lang (areca seed) – 9 Acupuncture: - REN 10, LV 13, ST 21 & 36

TCM PATHOLOGY

Stomach Cold vs. Spleen Yang Xu			Stomach Cold vs. Stomach Fire		
Type	Stomach Cold	Spleen Yang Xu	Type	Stomach Cold	Stomach Fire
Pain	Acute, cramping, colic pain	Chronic, dull, achy	Pain	Cramping	Burning
Pressure	Worse	Better	Pressure	Dislike pressure	Dislike pressure
Temp	Worse w/ cold	Better w/ warm	Temperature	Dislike cold	Dislike warm
N&V	Yes	No	Time of Meals	30 min after eating	Immediately after eating
Diarrhea	Watery	Undigested food	Hunger	No	Yes
Edema	No	Yes	Nausea/Vomiting	More Nausea/Vomiting	Acid reflux, regurgitation
Tongue	White coating, white tongue	White coating, pale flabby	BM	Watery	Constipation
Pulse	Tight (cold), Wiry (Pain)	Weak, deep, slow	Tongue	White coating	Yellow coating, red tongue
Pattern (Nature)	Excessive Cold	Deficient Type of Cold	Pulse	Tight	Rapid

Differentiation of Stomach Fire, Stomach Yin Xu & Spleen Yin Xu							
Type	Appetite	Hunger	Thirst	Vomiting	Hiccup	Gums	Breath
ST Fire	Voracious	Constant	Cold Drinks	After eating	After eating	Bleeding	Foul
ST Yin Xu	Don't want	Yes	Yes	Dry	Yes	Atrophy	OK
SP Yin Xu	Decreased	No	Mild	No	No	OK	No

Type	Fever	Sweat	Fatigue	Diarrhea	Constipation	Tongue	Pulse	Western Dx
ST Fire	Day	Day	No	No	Big, Dry Stools	Red w/ thick yellow coat	Excess	Erosive gastritis
ST Yin Xu	Afternoon	Night	OK	No	Pellet stools	Red, mirror	Thready	Atrophic gastritis
SP Yin Xu	Afternoon	Night	Yes	Yes	No	Red, teeth marks	Weak	Carcinoid syndrome

Spleen Qi Differentiation				Acute Diarrhea Differentiation	
Type	Spleen Qi Xu	Spleen Yang Xu	Spleen Qi Sinking	Type	Characteristics
General Qi Xu	Yes	Yes	Yes	Stomach Cold	Watery
Digestive function limited	Yes	No	No	Damp Heat	Sticky
Deficient Cold	No	Yes	No	Damp Heat in Large Intestine	Bloody, mucus
Organ Prolapsed	No	No	Yes		

Chronic Diarrhea Differentiation				
Type	Spleen Qi Xu	Spleen Yang Xu	Kidney Yang Xu	Liver Qi Stagnation
Diarrhea	Loose, Floating	Undigested Food	Five AM or Dawn	Emotional, IBS
Abdominal pain	No	Likes warmth & pressure (Deficiency)	No	Dislikes warmth & pressure (Excess)
Edema	No	Mild	Severe	No
Core Symptom	Fatigue	Deficiency Cold	Low Back Pain (LBP) Weakness of Knees (WOK)	Hypochondriac Pain
Tongue	Pale, flabby	More pale & flabby	Even more pale & flabby	Normal but ready to change
Coating	Thin white	White	Thick white	
Pulse	Weak & rapid	Weak & slow Deep in Guan Position	Weak & slow Deep in Chi position	Wiry

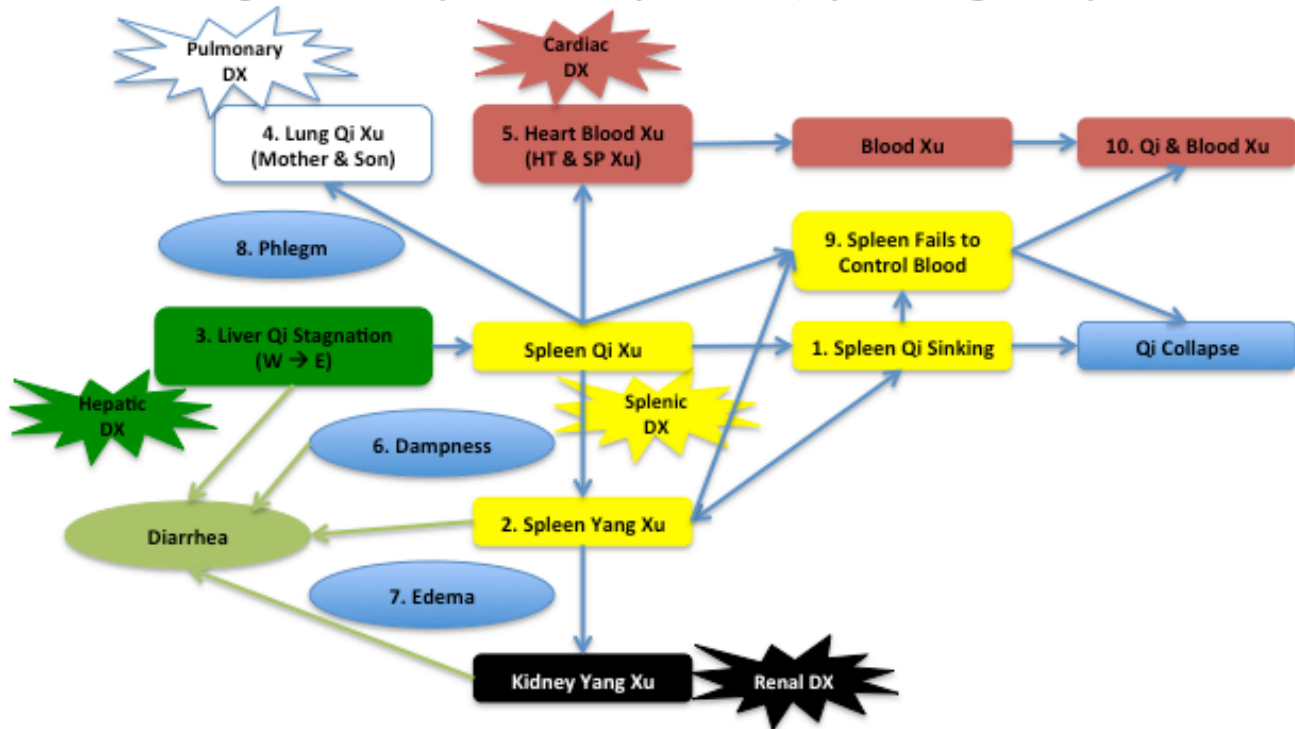

Hemorrhage Differentiation				
Type	Blood	Associates	Tongue	Pulse
Spleen Fails to Control Blood	Thin & Light color	Qi Xu	Pale, flabby	Weak & rapid
Blood Heat	Thick, warm & red color	Heat Manifestations	Fresh Red	Rapid & strong
Blood Stagnation	Dark purple with blood clots	Blood Stagnation	Dark purple	Choppy

Damp Heat Differentiation (Spleen, Liver, Gallbladder)						
Damp Heat	Jaundice	Pain	Fever	Body Ache	Pulse	Tongue
Spleen	Yes	Epigastric, abdominal	No	Yes	Soft, Rapid	Yellow sticky in center
Liver & Gallbladder	Yes	Hypochondriac	Yes	No	Wiry, Rapid	Yellow sticky On sides

Spleen Damp Heat vs. Damp Cold						
Spleen	Food	Thirst	Taste	Jaundice	Pulse	Tongue
Damp Heat	Fatty, sweet Alcohol, coffee	May want to drink some water	Bitter	Yes (Not 100% - only when affects LV)	Soft, rapid	Red Yellow sticky coat
Damp Cold	Raw, cold Dairy, sugar	No desire to drink water	Bland	No	Soft, may be slow	Pale White sticky coat

Spleen vs. Stomach						Thirst Differentiation	
	Typical Type	Direction	Likes	Dislikes	Temperature	Syndrome	Type of thirst
Spleen	Deficient	Upward	Dryness	Dampness	Warm	ST Fire	Thirst w/ preference for cold drinks
Stomach	Excessive	Downward	Dampness	Dryness	Moderate	ST Cold	Lack of thirst (No desire to drink, or wants warm water)
						SP Damp Cold	Absence of thirst or thirsty, but no desire to drink water
						SP Damp Heat	Thirst, may just want to drink a little, but not happy about it

Prognoses & Complications of Spleen Qi Xu, Spleen Yang Xu & Spleen Qi Sinking

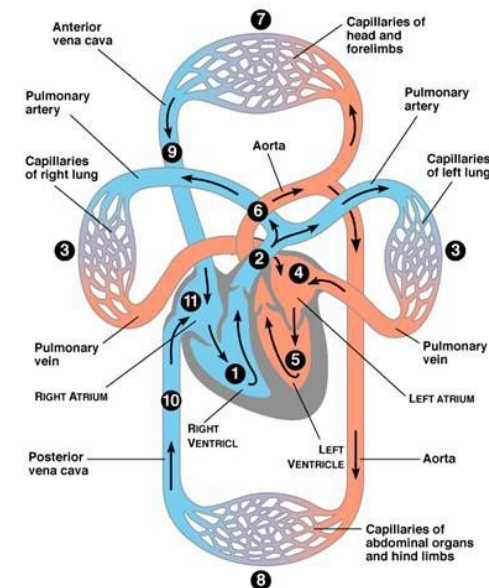

Heart Physiological Functions

- Circulatory function: Circulating blood & controls vessels
- Cerebral function: Housing the Spirit & rules the spiritual activities
- Other Characteristics:
 - Open into tongue
 - Manifest in face
 - Related to joy (emotion)
 - Body fluid: Sweat
- Deficiency types
 - Heart Qi & Yang Xu
 - Heart Blood & Yin Xu
 - Heart Yang Collapse
- Excess Types
 - Phlegm obstruction
 - Fire disturbance
 - Cold accumulation
 - Blood stagnation
 - Qi congestion
- Common signs & symptoms of Heart disorders
 - Palpitation, restlessness, chest pain,
 - Insomnia, Excessive dreams, Poor memory, delirium
- Heart is never first, other organs get affected first (Spleen: nutrition, Liver: emotions, etc.)
- Deaths in US
- Heart has 2 muscles: contraction & conducting → conduction involved in Yang Xu

Blood Circulation

1. Right ventricle
2. Pulmonary artery
3. Capillaries of left lung
4. Pulmonary vein → Right atrium
5. Left ventricle
6. Aorta
7. Capillaries of head & forelimbs (Upper Jiao)
8. Capillaries of abdominal organs & hind limbs (Middle & Lower Jiao)
9. Anterior vena cava
10. Posterior vena cava
11. Right atrium

TCM PATHOLOGY

Heart Deficiency Syndromes			
	Heart Qi Deficiency	Heart Yang Deficiency	Heart Yang Collapse
Definition	- Results from deficiency of Heart, emotional factors, unsmooth flow of blood stream & lack of heart support - Manifestations of hypo function or failure of Heart Qi or Heart Yang.	- Deficiency of Heart Yang develops from Heart Qi Xu - Appearance of deficiency cold syndrome (Very Important!) 3 Areas: - Heart - Chest pain - Water retention	Extremely severe state of heart Qi & yang failure which causes failure of heart to control the blood circulation
Etiology (Causes)	- Poor constitution due to prolonged illness or severe diseases - Congenital deficiency - Senility	Symptoms are always secondary to deficiency of Heart Qi	- Abrupt aggravating failures in acute or chronic internal organs - Severe vomiting & diarrhea - Great loss of blood - Profuse sweating - Severe infection - Severe spirit disturbance
Clinical Manifestation	Core Symptoms & Signs - Palpitations (worse on exertion) - Shortness of Breath (worse on exertion) - Spontaneous sweating (Key Indication → Most important symptom! Very Advanced) General Manifestations - Pale face - Dizziness - Fatigue	Core Symptoms & Signs - Heart Palpitations (Conduction cells involved) → SLOW (no tachycardia!) - Chest Pain (Cold makes contraction) - Pitting Edema (Water Retention) → Yin type edema General Manifestations (Qi Xu Symptoms + Cold Manifestations) - Palpitation - Bradycardia (abnormally slow heart action) - Shortness of breath - Spontaneous sweating - Fatigue, Pale Face - Dizziness - Cold limbs Blood Stagnation: - Chest pain - Cyanosis (Qi Xu, Yang Xu) Water Retention: - Puffy face - Lower leg pitting edema - General Yin type of edema Mental Function Change: - Sleepiness - Hypo-function of mental activity - Apathy (Qi Xu)	Core Symptoms & Signs - Sudden profuse sweating - Extremely cold extremities - Mental disorientation - Fading pulse General Manifestations - Sudden profuse sweating - Cold limbs - Feeble breathing - Cyanosis - Mental cloudiness - Coma
Prognosis & Complications	- Heart Yang Xu - Heart Blood Stagnation → (Qi Xu can cause Blood Stagnation) - Heart Qi & Blood Xu	- Heart Yang Collapse (Most Important! → ER) - Heart Blood Stagnation - Heart & Kidney Yang Xu	Yin & Yang Separation (DEATH)
Tongue	- Pale (insufficient blood supply) - Flabby (heart muscle weak) - White coating	- Pale, swollen - White, smooth coat	- Short - White coating
Pulse	Weak & Rapid (Very Important)	Weak & slow pulse	Fading pulse
Western Medicine	Left Ventricular Heart Failure → Pulmonary Congestion - Cough (frothy, bloody mucus) - Decreased urine production - Difficulty lying down - Need to sleep w/ head elevated to avoid SOB - Fatigue, weakness, faintness - Irregular, rapid pulse - Sensation or feeling heartbeat (palpitations) - Shortness of Breath - Waking up due to SOB (paroxysmal nocturnal dyspnea)	Right Ventricular Heart Failure - Shortness of Breath - Swelling of feet & ankles (most important evidence is water retention) - Urinating more frequently at night - Pronounced neck veins - Palpitations (sensation of feeling heart beat) - Irregular, fast heartbeat (impending collapse) → Not exactly equal to Yang Xu - Fatigue - Weakness - Fainting	Circulatory Shock - Low volume shock (profuse sweat, excessive blood loss, heavy diarrhea) → Most common - Neurogenic shock (not commonly seen) - Allergic shock (anaphylactic shock) - Septic shock (infection) - Cardiac shock (Coronary heart disease)
Treatment Principles	- Reinforce Heart Qi (Also tonify Spleen Qi)	Warm & Reinforce Heart Yang	Restore Qi & Yang to rescue collapse

TCM PATHOLOGY

Heart Deficiency Syndromes			
	Heart Qi Deficiency	Heart Yang Deficiency	Heart Yang Collapse
Therapeutics	Herbs: • Zhi Gan Cao Tang • Shen Fu Long Mu Tang • Gan Cao (Baked licorice) – 12 • Ren Shen (Ginseng) – 9 • Di Huang(Fresh rehmannia)– 15 • Mai Men Dong (ophiopogon)– 9 • Huo Ma Ren (cannabis seed) – 9 • E Jiao (gelatin) – 9 • Gui Zhi (Cinnamon twig) – 9 • Sheng Jiang (Fresh ginger) – 9 • Da Jiao (Jujube) – 9 • Fu Zi (Baked aconite) – 9 • Long Gu (Dragon’s bone) – 30 • Mu Li (Oyster shell) – 30 Acupuncture: • PC 5, PC 6, REN 14, UB 15 Lifestyle: • Regular aerobic exercise • Chinese ginseng tea daily	Herbs: • Si Ni Tang • Fu Zi (Baked aconite) – 9 (toxic, but most researched) • Gan Jiang (Dry ginger) – 9 • Baked Licorice Acupuncture: • PC 5, PC 6, HT 7, REN 14, UB 15 Lifestyle: • Proper Rest • Fu Zi (Baked aconite) → Need special preparation • Aconite & Lamb Soup (Daikon radish, kimchee)	Acupuncture: • Du 26, DU 25, KD 1 Herbs: • Sheng Mai San • Ren shen (ginseng) • Main Men Dong (• Wu Wei Zi Lifestyle: • Go to Emergency Room!

Stages of Heart Qi Xu	
Class	Clinical Manifestation
Mild (Qi Xu)	• Slight limitation of physical activity • Comfortable at rest but ordinary physical activity (daily personal routine) results in fatigue, palpitation (fast: tachycardia), or shortness of breath
Moderate	• Marked limitation of physical activity. • Comfortable at rest, but less than ordinary activity (daily personal hygiene) causes fatigue, palpitation or shortness of breath
Severe	• Unable to carry out any physical activity without discomfort. • Symptoms of cardiac insufficiency at rest. If any physical activity is undertaken, discomfort is increased

Heart Qi Xu → Heart Yang Xu → Heart Yang Collapse			
	Heart Qi Xu	Heart Yang Xu	Heart Yang Collapse
Energy Level	Low	Lower	Lowest
Cold Manifestation	No	Yes	Extreme
Mental Status	Apathy	Sleepiness	Disorientation, even coma
Tongue	Teeth Mark	More Flabby	Even short
Pulse	Weak	Weak & slow	Fading, even No pulse

Heart Blood Xu vs. Heart Yin Xu								
	Palpitation	Insomnia	Dream	General Constitution	Mind	Tongue	Coating	Pulse
Heart Blood Xu	Slow	Light Sleep	Can't remember	Blood Xu (1Y, 5P)	Poor memory	Pale, small	Thin white	Thready, maybe slow
Heart Yin Xu	Fast	Disturbed sleep	Remembered dreams	Yin Xu, Deficiency Heat	Irritability	Red, small	Peeled or mirror	Thready, fast

Heart Yang Collapse	Heart Yang Xu	Heart Qi Xu	Heart Blood Xu	Heart Yin Xu
• Sudden profuse sweating • Extreme cold extremities • Mental disorientation • Fading pulse	• Palpitation (bradycardia) • Chest pain • Pitting edema • Internal cold • Sleepy	• Palpitations • (Fast w/in normal range) • SOB • Fatigue • Spontaneous sweating	• Palpitations • (Slow w/in normal range) • Insomnia • Poor Memory • General Blood Deficiency	• Palpitation (tachycardia) • Insomnia • Excessive dreams • Deficient heat

3 Fire Differentiation			
Type	Heart Fire	Liver Fire	Stomach Fire
Core Sx	• Mental Restlessness • Red tongue tip • Hot, dark & scanty urination	• Headache • Anger, violent • Red eyes, red face	• Burning sensation & pain in epigastric region • Excessive appetite • Constant hunger
Mental	• Restlessness	• Anger	• Hungry to eat
Physical	• Ulceration & pain of mouth & tongue	• Hypochondriac pain • Violent behavior	• Stomach Qi rebelling • Swelling & pain or ulceration & bleeding of gums, cavities
Tongue	• Red Tongue tip	• Red tongue w/ yellow coating	• Red tongue w/ yellow coating
Pulse	• Rapid pulse	• Strong, wiry & rapid pulse	• Rapid & slippery pulse

TCM PATHOLOGY

	Heart Blood Deficiency	Heart Yin Deficiency	Heart Fire Hyperactive (AKA Small Intestine Excessive Heat)
Definition	Heart Blood & Yin fail to nourish the heart.	Heart Yin Deficiency generates internal deficient heat, then leads to internal disturbances	Refers to manifestations of heart fire flaming upward.
Etiology (Causes)	1. Spleen Qi Xu failing to produce blood 2. Severe hemorrhage 3. Chronic diseases impairing blood 4. Prolonged stress, anxiety & worry consuming blood	1. Excessive & prolonged anxiety & worry 2. Gradually injure heart yin 3. Yang pathogenic factors (summer heat, dryness, fire) may damage body fluids causing Heart Yin Xu 4. Kidney & Liver Yin Xu causes Heart Yin Xu (Very, very important! Root cause of disconnected Heart & Kidney)	1. Mental depression, turns to fire in prolonged cases 2. Retention in interior of body of exogenous pathogenic factors turning to fire 3. Excessive indulgence in pungent & hot food, cigarette smoking, alcohol, coffee → all produce heart fire over long period of time
Clinical Manifestation	Core Symptoms & Signs 1. Palpitation 2. Insomnia (difficulty falling asleep, maintaining sleep, wake up not feeling refreshed) 3. General blood deficiency (1 yellow, 5 pale) General Manifestations • Palpitation • Insomnia • Excessive dreams • Can't remember dreams • Poor Memory • Dizziness • 1 Yellow & 5 Pales (Sallow complexion, pale → face, lips, eyes, nails (most severe), tongue)	Core Symptoms & Signs 1. Palpitation 2. Insomnia 3. Deficient Heat General Manifestations • Palpitation (tachycardia) • Insomnia (Yin deficiency heat → wake up in middle of night @ yin/yang change time → (2 or 3 AM) • Common in Menopause (yin deficiency) • Excessive dreaming • Dream disturbed sleep (remember dreams well) Yin Xu Symptoms • Irritability (heat) • Fever in 5 centers • Afternoon Flushed face • Red cheeks (malar flush)	Core Symptoms & Signs 1. Mental Restlessness (Hyper) 2. Red tongue tip (all of tongue is more severe) 3. Hot, dark, scanty urination (not UTI) → Urine is too acidic [Small intestine connection → KD & SI are 2 organs involved in urine production] General Manifestations • Mental restlessness • Anxiety, Insomnia • Red face • Thirst & Prefers drinking cold liquid • Ulceration & pain in mouth & tongue (canker sores, etc.) • Hot & deep yellow urine • Hesitant & painful urination • Even urinary bleeding (not far/near blood)
Prognosis & Complications	• Heart Yin Xu • General Blood Xu • Heart Blood & Spleen Qi Xu (Very Important!!! Gui Pi Tang Patent)	• Disconnected Heart & Kidney • Separation of ▪ Mind (Heart Spirit) ▪ Body (Kidney Essence)	• 3 Fires (Heart, Liver & Stomach) • Heart Blood Xu • Heart Yin Xu
Tongue	Pale, small w/ white coating	Red, small tongue with diminished fluid, no coating (burned up coating)	Red tip
Pulse	Weak & thready, even slow pulse	Thready & rapid pulse (Size same as blood deficiency, but rhythm is different)	Rapid pulse
Treatment Principles	Nourish heart blood & yin to reinforce spirit	Nourish yin to reinforce spirit (Important to nourish Kidney yin)	Purge the heart fire
Therapeutics	Acupuncture: • An Mian, Yin Tang, H7, UB 15, SP6, UB 44 Herbs: Suan Zao Ren Tang • Fu ling – 12 • Chuan Xiong (ligusticum) – 9 • Zhi mu (anemarrhea) – 9 • Gan Cao (glycyrrhizae) – 6	Acupuncture: • Yin Tang, HT 7, SP6, KD6 Herbs: Nourishing Heart Blood & Yin Formula (Tian Wang Bu Xin Dan) • Gingko Biloba: nourishes heart • Di Huang (rehmannia) – 30 • Xuan Shen (scrophularia) – 9 • Mai Men Dong (ophiopogon) – 9 • Tian Men Dong (asparagus) – 9 • Dan Shen (Salvia) – 9 • Dang Gui (Angelica) – 9 • Fu ling (poria) – 12 • Bai Zi Ren (biota seed) – 9 • Yuan Zhi (polygala root) – 9 • Wu Wei Zi (schizandra) – 9 • Suan Zao Ren (wild jujube seed) – 9 • Jie Geng (platycodon) – 6 • Zhu Sha (Cinnabar) – 3 • Ren Shen (ginseng) – 9 Lifestyle: • American Ginseng (panax quinquefolius) w/ Royal Jelly & Bee Pollen	Acupuncture: • HT 9, PC 7, HT 5, HT 7, SP 6 Herbs: Purging Heart fire (Xie Xin Tang) & (Dao Che San) • Da Huang (rhubarb) – 10 • Huang Lian (coptis) – 9 • Huang Qin (Scutellaria) – 9 • Mu Tong (akebia) – 12 • Di Huang (fresh rehmannia) – 15 • Zhu Ye (bamboo leaf) – 9 • Gan Cao Shao (licorice) – 6 • Han Lian Cao (eclipta) – 15 • Xian Ji (small thistle) – 30 Lifestyle: • Drink water (Most important) • Eat fresh fruit & vegetables • Make body relax → Tryptophan, magnesium, Omega-3 fatty acids

	Heart Blood Stagnation	Phlegm misting the Heart Phlegm fire disturbing Heart
Definition	Insufficiency of heart Qi & Heart Yang causes retardation of blood circulation (Qi Deficiency!!!)	Manifestation of mind & body disconnected during the process of human spirit & essence separations
Etiology (Causes)	- Psychological stress (3 fires, particularly heart fire) - Accumulation of Pathogenic cold (cold causes constriction & stagnation) - Excessive sweet & greasy foods produce damp phlegm - Qi deficiency & yang deficiency **Important! - Excessive sexual activity	- Mental depression resulting in retardation of Qi circulation & consequent inability of Qi in distributing body fluid - Accumulation of body fluid forms phlegm which mists Heart
Clinical Manifestation	Core Symptoms & Signs - Palpitations (arrhythmia is blood stagnation) - Stabbing or stuffiness in chest (pain often refers to heart meridians) [most problems in heart area → descending artery on left ventricle & → heart rupture] General Manifestations - Palpitations - Arrhythmia - Intermittent cardiac pain - Stabbing or stuffy feeling - In pre-cardial region (middle of chest) or - Behind sternum, which often refers to both shoulders & arms, often to left side (Rare to see in back → T-4, T-5, but means patient is close to death) - Pain can also refer to small intestine - REN 14: Front Mu of Heart - Back Shu is UB 15 - Heart 5 Areas for referring pain: - Pre-cardial (back of breastbone): REN 14 - Both heart meridians, but particularly left - Back area (UB 15) - Heart-gallbladder - Heart Small Intestine Severe cases (Qi & Yang Collapse) - Cyanosis of face, lips & nails - Cold limbs - Spontaneous sweating	Core Symptoms & Signs - Depression (Yin & cold) - Mania - Bipolar General Manifestations Phlegm Misting Heart (Yin Type → Cold) - Muttering to oneself - Aphasia - Depression - Introverted manner - Staring at walls - Lethargic stupor - Rattling around in throat - Sudden loss of consciousness Phlegm fire disturbing heart (Yang type → heat) - Restlessness - Thirst - Insomnia with excessive dreams - Red face - Rough breath - Constipation - Concentrated urine - Incoherent speech - Violent behavior - Laughing & crying with no reason
Prognosis & Complications	- Heart Qi & Yang collapse - Blood stagnation in multiple organs (failure of Heart to circulate Blood)	Both types can convert to each other!!! - Phlegm cold misting heart - Phlegm fire disturbing heart
Tongue	Purplish, dark tongue or purplish spots	- Yin: pale tongue with white greasy coating - Yang: red tongue with yellow greasy coating
Pulse	Thready & hesitant or missed beat pulse	- Yin: slippery & slow pulse - Yang: wiry & slippery
Western Medicine	- Heart attack - Angina pectoris (usually lasts 2-10 minutes): (From Qi Xu in TCM) - Stable angina - Qi stagnation pain in day - Unstable angina (occurs at rest or night) → Blood stagnation pain worse at night → 30% of people will have heart attack within 3 months.	- Correspond to various mental diseases in modern medicine - Manic depression - Psychosis - Schizophrenia - Other organic & functional psychoses
Treatment Principles	Reinforce Heart Qi & Yang to move circulation	Clear heart & resolve phlegm
Therapeutics	Acupuncture: - PC 4 & 6, UB 15 & 17, REN 14 & 17, HT 6 & 9 Herbs: - Gua Lou Xie Bai Bai Jiu Tang - Tong Qiao Huo Xue Tang Lifestyle - Avoid 3 biggest risks - Smoking - Overweight (hyperlipidemia) - Stress (hypertension)	Acupuncture - PC 7 (one of 13 Ghost points → Sun Si Miou) - HT 7, Yin Tang, ST 40, SP 6 Herbs: - Dao Tan Tang (Resolving Phlegm Formula) Lifestyle: - Family Support - Social support - Medical support

TCM PATHOLOGY

	Kidney Yang Deficiency	Kidney Yin Deficiency	Kidney Essence Deficiency
Definition	Type of deficient cold in kidney yang deficiency leading to abnormality in warming & qi transformation. Pattern also called "failure of vital gate fire" Three theories: • Modern concept: Kidneys have yin & yang. Yang is called Ming Men. Adrenals sit on top of kidneys. • Traditional concept: In Kidney organs, the directions are opposite → • Right Kidney (pulse): Yang (Ming Men fire) • Left Kidney (pulse): Yin • Other theory: Between kidneys is an area called Ming Men (DU 4)	• Deficient heat due to consumption of kidney yin failing to nourish zang fu organ & engendering internal heat	• Due to kidney essence insufficiency & manifests as developmental retardation, hypofunctional reproduction & early senility
Etiology (Causes)	• Constitutional deficiency of yang • Weakness of kidney in old age • Kidney impairment may be due to prolonged illness • Excessive sexual activity	• Prolonged illness that damages the kidney's functions • Insufficiency of congenital inheritance • Excessive sexual activity • May occur because of excessive amount of warm & dry medicine that impairs kidney fluid	• Impairment of congenital inheritance • Deficiency of acquired nutrition • Excessive sexual activity • Prolonged illness damaging kidney
Clinical Manifestation	Core Symptoms & Signs 1. LBP (Lower Back Pain) 2. WOK (Weakness of Knees): Don't need pain, just weakness 3. Deficient cold signs & symptoms General Manifestations • Deficient cold: • Bright pallor or dark complexion • Soreness & weakness of lumbar region & knee joints • Aversion to cold • Cold limbs, especially in lower extremities • Dizziness, Lassitude • Ear: Poor hearing, even deafness • Body: Weight gain, even obesity • Digestion: Abdominal distention, prolonged diarrhea, undigested food in stool, 0500 diarrhea, (but could be constipation in special cases → slow BM & small, soft pieces of stool → seen mostly in clinic) • Sex: Impotence in males, cold in uterus or infertility in women • Mood: Sleepy, apathy, spirit fatigue, fear • Water metabolism: water retention, pitting edema, especially below the lumbar level	Core Symptoms & Signs 1. LBP (Lower Back Pain) 2. WOK (Weakness of Knees): Don't need pain, just weakness 3. Deficient heat signs & symptoms General Manifestations • Soreness in lumbar region & knee joints • Feverish in 5 centers • Dry throat, malar flush • Night sweat (most advanced sign of yin xu) → sweat unconsciously (burglar sweat) • Afternoon fever • Prefer cold drink • Yellow urine • Ear: ringing in ear, tinnitus • Body: Weight loss, can't maintain weight • Digestion: Constipation, dry stool • Sex: Males: abnormal frequent erection, nocturnal emission, premature ejaculation • Females: oligomenorrhea, amenorrhea, vaginal dryness • Mood: insomnia w/ excess dreams, irritability	Core Symptoms & Signs (5 Areas) • Teeth • Bones • Hair • Sexual substances • Mental states General Manifestations In adults: • Early senility, tinnitus, deafness, poor memory, absent minded (loss of short term memory), mental retardation • LBP & WOK, • Teeth: unfirm teeth, lost teeth • Bones: Degenerated bone & joints • Hair: Grey hair, lost hair • Sexual substances: • Male: Oligospermia, scanty semen, unable to fertilize • Female: Amenorrhea, unable to reproduce, low libido, infertility In children: • Developmental retardation, dwarfism, delayed closure of fontanel, mental retardation, weak bones, flaccidity of bones • 5 Slows (Standing, Walking, Teething, Hair growing, Speaking) • 5 Softs (Head, neck, arms & hands, legs & feet, muscles)
Prognosis & Complications	• Yin type of edema • Kidney fail to receive Qi • Spleen & Kidney Yang Xu • Heart & Kidney Yang Xu • Both Kidney Yin & Yang Xu	• Liver & Kidney Yin Xu • Lung & Kidney Yin Xu • Disconnected Heart & Kidney • Kidney & ST or SP Xu • Both Kidney Yin & Yang Xu	• Kidney Qi Xu, Kidney Yin Xu, Kidney Yang Xu, Liver Blood Xu → All lead to Kidney essence Xu (Liver Blood & Kidney Essence exchange) • → Yin & Yang
Tongue	• Pale, flabby tongue with thin white coating • Teethmarks	• Small red tongue • No coating	• Small tongue
Pulse	• Deep & weak pulse (right chi position)	• Rapid & thready pulse	• Thready & weak pulse
Western Medicine	• Hypothyroidism (underactive thyroid)	• Menopause (in men, it's called andropause → yang deficiency)	• Hutchinson-Gilford Progeria Syndrome (die of heart attack, stroke)
Treatment Principles	• Replacing the kidney yang & warming the Vital Gate Fire	• Replace kidney yin & clear deficient heat	• Tonify kidney essence
Therapeutics	Acupuncture: • KD 3, UB 23, REN 4, DU 4, REN 6 Herbs: • You Gui Wan Lifestyle: • Angelica Mutton Soup • (Lamb is yang tonic)	Acupuncture: • KD 3 (Best), KD 6 (Deficiency heat) • UB 23, REN 4 (induce heat back to source) Herbs: • Zuo Gui Wan (Turtle shells) Lifestyle: • Turtle soup	Acupuncture: • GB 39 (tonify essence), KD 3, UB 23, REN 4, ST 36, Herbs: Gui Lu Er Xian Jiao • Deer antler, Turtle shell (good for yin) Lifestyle: • Oxtail & Chinese Yam Soup

TCM PATHOLOGY

	Insecurity of Kidney Qi (Can't grasp the Qi) [Kidney Regulates water & Essence]	Kidney Fails to Receive Qi	Damp Heat in Urinary Bladder
Definition	When kidney qi is "insecure" it fails to perform function of discharge of urine, semen & other sexual substances	Manifestation of inability of kidney to grasp & hold down Qi sent down by lung in respiration	Manifestation of pathogenic damp heat accumulating in urinary bladder
Etiology (Causes)	- Senile debilitation - Juvenile mal-development of kidney Qi - Damage through sexual intemperance - Prolonged illness	- Prolonged cough or asthma, lung deficiency - Damaged kidney or other chronic diseases that influence the kidney	- Invasion of exogenous pathogenic damp heat accumulating in bladder - May result from excessive eating of hot, greasy & sweet food, or improper sexual activities
Clinical Manifestation	Core Symptoms & Signs - LBP & WOK - Night urination General Manifestations General Qi Deficiency (Big 5) - Pale face, fatigue, poor hearing - Soreness & weakness of back & knees Urinary dysfunction: - Frequent clear urine - Frequent dribbling - Eneuresis - Incontinence - Remarkable night urination - Sexual dysfunction - Males: seminal emission, seminal efflux, premature ejaculation - Female: clear leucorrhea, miscarriage	Core Symptoms & Signs - LBP & WOK - Prolonged cough or asthma - More exhalation & less inhalation (Normally exhale is shorter than inhale) General Manifestations General Kidney Qi Deficiency - Prolonged cough or asthma - More exhalation & less inhalation - Shortness of breath aggravated by exertion - Spontaneous sweating - Lassitude - Lower voice May combine with Kidney Yin Xu (often due to warm natural medicine (ginseng) & supplements (ephedra)) - Soreness & weakness of back & knees - Tachypnea - Flushed face - Irritability - Dry throat & mouth - Yang collapse in severe case - Dyspnea - Profuse cold sweat - Cold extremities - Blue face - Floating & big pulse without pulse root	Core Symptoms & Signs - Frequency of urination - Urgent urination - Burning pain in urethra General Manifestations - Dark yellow concentrated urine - Distention in lower abdomen (bladder) - Fever accompanied by back pain (kidney) (Pinching area in center of ureter area is where kidney stones get caught → Ureter pain on side. Can refer to front) 4 areas of pain: - Back (Kidneys) - Side (Ureters): Most painful area for kidney stone - Lower abdomen (bladder) - Burning (Urethra) - Urine Colors - Light yellow: Normal - Dark yellow - Bright red: Infection is lower - Dark red or black: Infection is higher - Stone in urine: - Most common stone type: calcium
Prognosis & Complications	- Kidney Yin Xu - Kidney Yang Xu - Kidney fail to receive Qi - Kidney essence Xu	Kidney fail receive Qi → Yang Collapse → Yin & Yang Separation	Kidney Yin Xu (major) - Yang type Edema - Yin type Edema
Tongue	Pale tongue w/ white coating (Qi Xu tongue)	Pale tongue white coating	Red with yellow sticky coating (even black)
Pulse	Deep & weak pulse	Deep & weak pulse	Rapid, slippery pulse
Western Medicine	- Nocturia - Females: resulting from	Emphysema (COPD)	- Nephritis - Acute Pyelonephritis - Bladder infection (cystitis) - Urethritis
Treatment Principles	Secure kidney Qi & regulate semen & urine metabolism	Strengthen Kidney to receive Qi	- Clear damp heat in bladder & regulating urinary metabolism - Reinforce Kidney Qi (key to prevent UTI)
Therapeutics	Acupuncture: - REN 4, REN 6, DU 20 - ST 36 (reinforce Qi) - Tonify: back shu points, and yuan source point Herbs: - Jin Suo Bu Jing Wan (For essence) - Su Quan Wan (For urination) Lifestyle: - Cordyceps stewed quail soup	Acupuncture: - Ding Chuan (C7), REN 6, 17 & 22, DU 4 - UB 13 & 23 Herbs: - Ren Shen Ge Jie San - Geckos (can regrow tail) → only use tails Lifestyle: - Ginkgo white fungus soup	Acupuncture: - UB 28, REN 3, SP 6 & 9, LV 2, KD 3 Herbs: Ba Zheng San (fluid is very good way to treat UTI → decoctions) Lifestyle - Cranberry juice, herbal teas - Drink lots of water - After BM, wipe from front to back - Avoid spermicide use with a diaphragm (spermicide increases risk of UTI)

TCM PATHOLOGY

Small Intestine Syndromes

Excessive Heat in Small Intestine	→	Heart Fire Hyperactive
Deficient Cold in Small Intestine	→	Spleen Yang Deficiency
Small Intestine Qi Stagnation	→	Cold Accumulating in Liver Meridian (Channel)

		Phlegm Cold Misting Heart (Yin)	Phlegm fire Disturb Heart (Yang)
Mood		Depressed (Depression)	Irritable (Manic)
Psychological		Low self confidence Helpless Hopeless	Inflated self esteem Racing thoughts Heightened interest
Somatic (Body)	Energy	Fatigue, listless, slow movement, no exercise	Lot of energy
	Weight	Gain weight (obesity)	Very skinny
	Sleep	A lot of sleep in the day time, not enough at night	Decreased need for sleep, non sleepers
	Sex	Loss of sexual desire, no menses, no ejaculation	Extremely high sex desire & sexual activity
Psychotic		Delusions of worthlessness Delusions of ill health Hallucinations of sounds & sights	Delusions of wealth Delusions of exceptional talent Offensive Violent towards other people

Differentiation: Kidney Qi Xu, Kidney Yang Xu, Kidney Yin Xu

Type	Kidney Qi Xu		Kidney Yang Xu (Cold)	Kidney Yin Xu (Dry)
Core Sx & Signs	Chronic LBP & Weakness of Knees (WOK)		LBP & WOK, Deficient cold	LBP & WOK, Deficient heat
Ear	Poor hearing		Poor hearing, even deafness	Ringing in ear, tinnitus
Body	Shortness of breath, aggravated by exertion Exhalation >> Inhalation		Weight gain, even obesity Pitting edema (especially below lumbar level or swelling thru whole body)	Weight loss, even could not maintain weight
Digestion & Urination	• Nocturia (Most Important!) • Frequent & clear urination • Incontinence		0500 Diarrhea (but could be constipation in special cases → Slow BM & small pieces of stool)	Dry stools & constipation Yellow urine
Sex	Male	Seminal emission	Impotence, low sex drive	Abnormal frequent erection, nocturnal emissions, premature ejaculation
	Female	Thin white leucorrhea	Cold in uterus, infertility	Oligomenorrhea, amenorrhea, vaginal dryness
Mood	Fatigue		Sleepy, apathy, spirit fatigue	Insomnia w/ excessive dreams, Irritability
Skin	Pale face		Bright pallor or dark face, even edema	Dry, rough, even red

Kidney Essence Xu vs. Liver Blood Xu

Syndrome	Orifices	Limbs	Hair	Sex	Mind
Kidney Essence Xu	Ears	Bones Teeth	Hairs w/ renal symptoms (grey, aging, hair loss)	Sexual substance	Mental states
Liver Blood Xu	Eyes	Tendons Nails	Hair w/ blood symptoms (hair thin, broken, easily damaged, fall off, beauty of hair, dry hair, hair condition)	Chong & Ren (menstruation & ejaculation)	Memory condition

Seven Types Of Damp Heat

Phlegm Heat in Lung	Cough, asthma, Yellow sticky sputum, fever, thirst, stuffiness & fullness in chest, dyspnea, wheezing
DH in Liver Organ	Hypochondriac pain & distention, liver enlargement, jaundice, anorexia, abdominal distention, some diarrhea
DH in Liver Channel	NO Jaundice!!! Eczema in scrotum with heavy itching, Pain & distention in testes Leucorrhea with yellow color & fetid color, vaginal itching
DH in Gall Bladder	Alternating fever & chills, Jaundice, abdominal cramping referring to right shoulder, bitter taste, nausea, some constipation w/ pale stool
DH in Spleen	Fullness & Distention in epigastrium & abdomen, loss of appetite, nausea, vomiting, bitter taste, stickiness in mouth Thirst but may only want to drink a little water
DH in Large Intestine	Abdominal pain, tenesmus, blood & mucus in stool, possible fever, restlessness, thirst, nausea, vomiting, scanty deep yellow urine
DH in Urinary Bladder	Frequent, urgent urination, burning pain in urethra, dark yellow concentrated urine, distention in lower abdomen, fever & back pain

TCM PATHOLOGY

TCM Deficiency Syndromes				
Qi Xu Syndromes	Lung Qi Xu	Spleen Qi Xu	Heart Qi Xu	Kidney Qi Xu
Big 5: 1. Pale face (earliest sign) 2. Fatigue (KEY symptom) 3. Apathy (mental fatigue) 4. Dizziness 5. Spontaneous sweating (most severe Sx) • Tongue: Pale, flabby w/ teeth marks • Thin white coat • Pulse: Weak, relatively fast	(Most common traditionally) • Shortness of Breath • Weak voice • Cough • Chronic Asthma • Spontaneous sweating • Aversion to wind • Catches colds easily	Acquired Foundation (Most common in US) • Poor appetite • Abdominal Distention • Fatigue • Loose stool • Poor digestion • Malnutrition • Even emaciation	• Palpitations • Shortness of Breath • Spontaneous sweating • Mental fatigue • Poor spirit	• Chronic lower back pain • Weakness & pain in knees • Nocturia (Most Important!) • Poor hearing • Shortness of breath aggravated by exertion • Exhalation >> Inhalation • Frequent & clear urination • Incontinence • Seminal emission • Thin white leucorrhea
Yang Xu Syndromes		Spleen Yang Xu	Heart Yang Xu	Kidney Yang Xu
Qi Xu + Cold Manifestations • Cold extremities • Aversion to cold • Lower body temperature • Slow metabolism • Water retention • Poor sexual function • Tongue: Pale & flabby • White, moist coating • Pulse: Deep, weak & slow		• Pallor • Coldness in four limbs • Poor appetite • Abdominal distention (worse after eating) • Dull abdominal pain (Better with warmth & pressure) • Loose stools with undigested food • Water retention	• Palpitations • Spontaneous sweat (even sudden profuse sweating) • Sleepiness • Chest pain • Cold extremities • Edema • Feeble breathing • Cyanosis • Mental cloudiness, even coma • Pulse: Fading	• Soreness & weakness of lumbar region & knees • Aversion to cold • Cold limbs (especially lower extremities) • Dizziness, Lassitude • Pallor or dark face • Low sex drive • 0500 diarrhea (or constipation → small pieces) • Males: Impotence • Females: Infertility or cold in uterus • Pitting edema (especially below lumbar level or welling thru whole body)
Blood Xu Syndromes		Liver Blood Xu	Heart Blood Xu	Kidney Essence Xu (No KD Blood Xu!!!)
1 Yellow & 5 Pales • Sallow complexion or • Pale face with no shining complexion • Pale eyes • Pale lips • Pale tongue • Pale nails • Tongue: Pale w/ thin white coating • Pulse: Thready, relatively slow	Lung Assembles Blood → NO Lung Blood Xu	• Sallow face • Dizziness • Blurry vision • Night blindness • Numbness of extremities • Tremors or spasms of tendons & muscles (wind) • Dry, rough, lusterless skin • Menstrual problems • Scanty, light-colored menstrual flow • Oligomenorrhea • Amenorrhea	• Palpitations • Poor memory (KEY Sx) • Excessive dreams (but can't remember) • Insomnia	• Slow physical development • Generally poor skeletal development • Poor intelligence • Dull action, mental dullness • Late/ incomplete fontanel closure in children • Oligospermia • Infertility • Amenorrhea • Female: Weak sexual activity • Premature senility • Head hair loss • Infirm teeth • Tinnitus & deafness • Adults: Lower back pain, teeth, bone, hair, sexual function • Children • 5 Slow: Standing, Walking, Teething, Growing hair, Speaking • 5 Soft: Head, Neck, Hands, Feet, Muscles

TCM PATHOLOGY

TCM Deficiency Syndromes				
Yin Xu Syndromes	Lung Yin Xu	Spleen Yin Xu	Heart Yin Xu	Kidney Yin Xu
Xu Heat with Red Color Blood Xu + Xu Heat (Convert pale to Red) • Fever in 5 centers (palms, soles, chest) • Afternoon fever • Night sweats • Flushed face • Dry Throat • Tongue: Red, small • Little to no coating • Pulse: Thready & Rapid	• Dry cough • Dry throat • Cough w/ blood tinged sputum • Afternoon fever • Night sweat • Malar flush • Fever in 5 centers	• Dry mouth & lips • Poor appetite • Loose stool • Diarrhea [Only Yin Xu with Diarrhea!!!]	• Irritability • Afternoon fever • Night sweats • Insomnia • Palpitation (tachycardia)	• Soreness of lumbar region & knee joints • Dry mouth & throat • Dizziness, tinnitus • Nocturnal emission • Males: Premature ejaculation • High sex desire but no ability • Dry vagina • Sexual fantasies • Yellow urine • Constipation
	Liver Yin Xu	Stomach Yin Xu		
	• Dry eyes • Dizziness • Blurry vision • Impaired vision • Hypochondriac pain • P&C: Kidney Yin Xu → Liver Yang rising	• Dry tongue & mouth (Leather bag/bottle) • Hunger w/ no desire to eat • Dry vomiting & hiccups • Uncomfortable sensation in mouth • Dry stool (pellets) • Constipation, Scanty urine		

15 Patterns of Multi-Organ Pathology Summary (Core Symptoms & Signs)					
	Heart	Lung	Liver	Spleen & Stomach	Kidney
Heart		HT & LU Qi Xu • Cough, Panting • Palpitations • Manifestations of General Qi Xu	HT & LV Fire Hyperactive • Red eyes • Red tongue • Irritability • Anger	HT Blood & SP Qi Xu • Palpitations, Insomnia • Poor appetite • Abdominal distention • Chronic Blood Loss (menstrual, GI, platelets) • Sx of Qi & Blood Xu Mental worry: KEY Sx	HT & KD Yang Xu • Palpitations (slow) • Edema (yin → pitting) • Manifestations of Deficiency Cold
Lung			LV Fire Insulting LU • Cough or hemoptysis (Important!!!) → Irritable respiratory symptoms • Burning pain in chest & hypochondrium • Bursts of anger • Symptoms of excess fire syndrome	LU & SP Qi Xu • Poor appetite • Loose stools • Cough, panting • Profuse sputum • Common manifestations of Qi deficiency	LU & KD Qi Xu • Chronic panting, SOB, difficulty inhaling • Severe panting aggravated with exertion • Lumbar pain & soreness • Sx of LU & KD Qi Xu • Symptoms more severe than Lung Qi Xu
Liver	HT & LV Blood Xu • Abnormality of Heart (mind) • Failure of nourishment of eyes, sinews & nails • Sx of Blood Xu			LV Invading SP (IBS) • Distending pain in chest & hypochondrium • Abdominal distention • Poor appetite • Loose stools (IBS)	LV & KD Yin Xu • Weakness & pain in back & knee joints • Hypochondriac pain • Nocturnal emissions • Dizziness & headache • Deficiency Fire Sx
Spleen & Stomach			LV Invading ST (GERD) • Distending pain or wandering pain in chest, epigastrium, hypochondrium • Stomach Qi Rebellion		SP & KD Yang Xu • Cold pain of lumbar region & knees or lower abdomen • Chronic diarrhea • Chronic edema (yin type) • Deficiency cold Sx
Kidney	HT & KD Disconnect • Palpitations, Insomnia • Dream disturbed sleep • Nocturnal emissions • Weakness & aching in back & knees • Manifestations of Yin Xu Syndrome	LU & KD Yin Xu • Cough w/ scanty or blood tinged sputum • Aching back & knee joints • Emissions • Symptoms of deficient heat syndrome	LV Blood & KD Essence Xu • Hypofunctional reproduction • Early senility in adults (without obvious heat or cold syndrome) • Failure to nourish & moisten sinews, bones, hair, eyes, nails, teeth		

TCM PATHOLOGY

15 Patterns of Multi-Organ Pathology					
	Heart Qi & Lung Qi Deficiency	Heart & Kidney Yang Deficiency	Heart Blood & Spleen Qi Deficiency	Heart & Kidney Disconnected/Disharmony	Heart & Liver Fire Hyperactive
Definition	- Due to Heart Qi & Lung Qi deficiency - Manifests as palpitation, cough & panting	- Caused by HT & KD Yang Xu failure to warm the whole body → Fails to move Qi, Blood, Fluids → Blood stasis, fluid retention & stagnation - Manifests as deficiency cold	- Due to HT Blood deficiency & SP Qi Xu → Manifests as HT Blood Xu symptoms (abnormality of heart mind) - SP Qi Xu causing failure as source of producing Qi & Blood, Failure to control Blood	- Caused by KD Yin Xu failing to ascend to cool the HT Fire - Leads to HT Fire Hyperactive → Flaring up of Heart Xu Fire	Manifestations of HT & LV fire flaming upward
Etiology (Causes)	- Chronic illness, cough & panting → Damage the Qi of Heart & Lung - Weak constitution with weakness of old age - Excessive taxation fatigue - If Lung Qi is deficient, it fails to promote Initial Qi → Heart Qi Deficiency - If Heart Qi is deficient first → Initial Qi exhausted → Lung Qi Deficiency	Can develop from chronic Heart Yang Xu along with Kidney Yang Xu failing to transform Qi → Water overflowing to Heart	- Chronic diseases - Over thinking & anxiety - Irregular dietary habits damaging SP & ST - Chronic blood loss → Blood & Qi Xu	- Caused by over-thinking & anxiety - Emotional changes turn into fire & injure HT & KD Yin - Prolonged illness - Excessive sexual activity → consumption of KD Yin → unable to control HT Yang → HT Xu Fire Hyperactive - Fire is hyperactive in Upper Jiao → rises upward to disturb mind	- Long term depression of seven emotions - Emotional frustration → Liver Qi stagnation → transforms in to Fire - Internal fire leading to Liver & Heart fire flaring upward
Clinical Manifestation	Core Symptoms & Signs - Cough - Panting - Palpitation - Manifestations of General Qi Xu Syndrome General Manifestations - Chest stuffiness or oppressed feeling - Palpitation - Cough, panting, asthma - Shortness of breath (aggravated with exertion) - Clear & dilute sputum - Dizziness, Mental fatigue, lassitude - Weak voice - Spontaneous sweating - Lack of strength, listlessness - Pale complexion - Light purple lips	Core Symptoms & Signs - Palpitations (slow) - Edema (yin → pitting) - Manifestations of Deficiency Cold General Manifestations - Palpitation - Cold body & limbs - Edema - Urinary Problems (Kidney Yang Xu → less urine → insufficient) - Mental fatigue - Lack of strength - Pale cyanosis of lips & nails - Blood stagnation (stenosis)	Core Symptoms & Signs - Palpitations, Insomnia - Poor appetite - Abdominal distention - Chronic Blood Loss (menstrual, GI, platelets) - Sx of Qi & Blood Xu - Mental worry: KEY Sx General Manifestations - Palpitations, Insomnia - Dream disturbed sleep - Dizziness - Forgetfulness (amnesia) - Poor appetite - Abdominal distention - Loose stools - Shortness of breath - Mental fatigue - Lack of strength - Sallow/pale complexion - Pale lips & nails - Bleeding spots under skin - Scanty pale menstruation - Amenorrhea	Core Symptoms & Signs - Palpitations, Insomnia - Dream disturbed sleep - Nocturnal emissions - Weakness & aching in back & knees - Manifestations of Yin Xu Syndrome General Manifestations - Includes KD Yin & HT Yin Xu Syndromes - HT vexation, palpitation - Insomnia (wake up, can't return to sleep) - Dream disturbed sleep - Dizziness, tinnitus - Forgetfulness - Weakness & aching in back & knee joints - Nocturnal emissions - Vaginal dryness - Fever in 5 centers (Chest, palms, soles) - Tidal fever - Night sweats - Dry mouth & throat	Core Symptoms & Signs - Red eyes - Red tongue - Irritability - Anger General Manifestations - Dysphoria w/ hot sensation in chest - Insomnia - Red complexion - Flushed face - Red eyes - Bitter taste in mouth - Dry mouth - Irritability - Anger - Constipation - Scanty yellow urine
Tongue	Pale, big, light purple tongue	- Pale light, dark or purple - White slippery coating	Pale & tender	Red w/ diminished or no coating (Yin xu)	- Red w/ red-crimson tip - Tongue ulcers w/ yellow coating
Pulse	- Deep & weak - Knotted & intermittent (stagnation)	Deep, thready, faint	Thready, weak	Thready & rapid	Wiry & rapid
Treatment Principles	- Reinforcing heart & lung Qi - Prevent Blood Stagnation	- Warm Yang - Reinforce HT & KD - Move blood stagnation - Promote urination	- Tonify Heart & Spleen - Strengthen Qi & Blood	- Tonify Yin & reduce fire - Connect HT & KD	- Clear internal heat - Promote bowel movement & urination (Anger can cause constipation → drink water to cool mind & alleviate constipation)

15 Patterns of Multi-Organ Pathology					
	Heart & Liver Blood Deficiency	Lung (Son) & Spleen (Mother) Qi Deficiency	Lung Qi & Kidney Qi Deficiency (Kidney fails to receive or grasp Qi from Lung)	Liver Fire Insulting Lung (Wood insults Metal) (Invasion of Lung by Liver Fire)	Lung & Kidney Yin Deficiency
Definition	- Abnormal HT mind & failure of LV Blood to nourish eyes & related organs - Blood Xu syndrome	- Spleen fails to transform & transport - Lung fails to disperse & descend	- Failure of KD to grasp or receive Qi - Mainly manifests as panting & shortness of breath - Due to weak function of LU in governing Qi & dominating defensive function	- Liver characterized by ascending & Lung characterized by descending. - When there is too much ascending of Liver Qi, the fire will go upward to insult Lung	- Due to LU & KD Yin Xu generating deficient heat - Yin of LU & KD nourish each other → Dispersing & descending of LU fluid nourishes KD & Rising of KD Yin (Essence) nourishes LU
Etiology (Causes)	- Over thinking & anxiety injuring Heart blood - Excessive loss of blood - Spleen deficiency failure to generate blood	- Prolonged cough that may cause deficiency of lung & later affect spleen (disorder of child affecting mother organ) - Irregular eating & overstrain may injure spleen → failure in transporting essence to lung	- Chronic diseases eventually affecting kidneys - Physical overwork over a long period of time weakening Kidney Qi - Chronic cough damaging lung Qi or spleen deficiency unable to transform sufficient food to essence Qi for nourishing Lung	- Depression - Anger damages Liver → Qi stagnation → Transforms into fire - Heat evil blazing upward through Liver channel to insult Lung	- Dry heat - EPF injuring LU Yin - Chronic cough & panting damaging LU Yin → Further development of KD Yin Xu - Excessive sexual activities consuming KD Yin → Fails to rise to nourish LU
Clinical Manifestation	Core Symptoms & Signs - Abnormality of Heart (mind) - Failure of nourishment of eyes, sinews & nails - Symptoms of Blood Xu General Manifestations - Palpitations - Forgetfulness (poor memory) - Insomnia - Dream disturbed sleep - Dizziness - Dry eyes - Blurred vision - Numbness of limbs, tremor, cramps - Scanty, light menstruation - Amenorrhea - Withered & brittle nails	Core Symptoms & Signs - Poor appetite - Loose stools - Cough, panting 4. Profuse sputum - Common manifestations of Qi deficiency General Manifestations - Poor appetite - Abdominal distention - Loose stools - Chronic cough - Shortness of breath - Panting - Weak voice - Laziness in speaking - Profuse sputum	Core Symptoms & Signs - Chronic panting, SOB, difficulty inhaling [Exhale >> Inhale] - Severe panting aggravated with exertion - Lumbar pain & soreness - Symptoms of LU & KD Qi Xu - Symptoms more severe than Lung Qi Xu General Manifestations - Panting - Shortness of breath on exertion - Difficulty inhaling - Severe panting on exercise - Lethargy in speaking - Spontaneous sweating - Fatigue - Soreness in lumbar region & knee joints - Weak breathing, cold profuse sweating, cold limbs, blue complexion (cyanosis of face)	Core Symptoms & Signs 1. Cough or hemoptysis (Important!!!) → Irritable respiratory symptoms - Burning pain in chest & hypochondrium - Bursts of anger - Symptoms of excess fire syndrome General Manifestations - Oppressed feeling & burning pain in chest & hypochondrium - Irritability, outbursts of anger - Distending headache - Dizziness - Red complexion & eyes - Feverishness - Bitter taste in mouth - Cough with sticky, thick, yellow sputum - Hemoptysis	Core Symptoms & Signs - Cough w/ scanty sputum - Aching back & knee joints - Emissions - Symptoms of deficient heat syndrome General Manifestations - Cough w/ scanty or blood tinged sputum - Dry mouth & throat - Hoarse voice - Soreness & weakness of lumbar region & knee joints - Tidal fever, night sweats - Red cheeks (malar flush) - Thin body - Nocturnal emissions - Irregular menstruation
Tongue	- Pale, small tongue - Thin white coating	- Pale - Slippery white coating	- Pale - White coating	Red w/ diminishing yellow coating	Red w/ diminishing coating
Pulse	Thready	Thready & weak pulse	Weak & deep	Wiry & rapid	Thready & rapid
Treatment Principles	- Tonify Blood - Regulate Heart & Liver functions	- Tonify Spleen (earth) to promote Lung (metal) - Warmly transform phlegm	Tonify Kidney to grasp Lung Qi	- Clear Liver & detoxify Lung - Cool down Liver	- Tonify Kidney Yin & - Promote Lung function

15 Patterns of Multi-Organ Pathology					
	Liver Invading Spleen (Wood Overacting on Earth) → IBS	Liver Invading Stomach (Disharmony Between Liver & Stomach) → GERD	Liver & Kidney Yin Deficiency	Liver Blood & Kidney Essence Deficiency	Spleen & Kidney Yang Deficiency
Definition	- Due to Liver failing to ensure the smooth (free) flow of Qi → dysfunction of Spleen in digestion & transportation → - Manifests as distending pain in chest & hypochondrium, abdominal distention, loose stools	- Due to Liver Qi depression & stagnation → attacks stomach horizontally → Stomach fails to govern descending - Manifests as distending pain in epigastrium & hypochondrium	- Due to Liver & Kidney Yin Deficiency → Causes failure of yin in controlling yang - Yin deficiency causes internal heat	Due to Liver Blood & Kidney Essence insufficiency → unable to nourish body system	- Due to Kidney & Spleen Yang Deficiency failing to warm interior - Manifests as deficiency cold syndrome with symptoms like diarrhea or edema
Etiology (Causes)	- Caused by depressed emotions, especially repressed anger damaging LV → breakdown of smooth (free) flow of Qi - Irregular diet or overstrain & stress → injures spleen → Failure of spleen in digestion & transportation	Caused by depressed emotions leading to LV Qi Stagnation → turns into fire & horizontally invades Stomach	- Chronic diseases leading to consumption of yin fluids - Emotional problems injuring Yin - Excessive sexual activity depleting yin essence - Chronic warm diseases impairing Liver & Kidney Yin → Liver & Kidney Yin Deficiency	- Hereditary weakness - Postnatal deficiency leading to primary (yuan) Qi insufficiency - Old age & aging process - Excessive sexual activity gradually impairs Kidney essence - Weakness of Spleen & Kidney leading to insufficient production of Qi & Blood → Injures Liver Blood → Nutrient deficiency	- Chronic diseases of Spleen & Kidney → consumes Qi & damages Yang - Chronic diarrhea or longstanding accumulation of water evil → damaging Kidney Yang → causes failure to warm Spleen Yang - Chronic Spleen Yang deficiency failing to nourish Kidney Yang
Clinical Manifestation	Core Symptoms & Signs - Distending pain in chest & hypochondrium - Abdominal distention - Poor appetite - Loose stools (IBS) General Manifestations - Distending or wandering pain in chest hypochondrium - Sighing - Emotional frustration, irritability - Anger outbursts - Poor appetite, abdominal distention - Loose stools with sensation of incomplete defecation - Flatulence, abdominal pain w/ feeling of diarrhea, alleviated after defecation - Intermittent constipation & diarrhea	Core Symptoms & Signs - Distending pain or wandering pain in chest, epigastrium, hypochondrium - Stomach Qi Rebellion General Manifestations - Distending pain - Wandering pain in chest, epigastrium & hypochondrium - Hiccups, belching - Nausea & vomiting - Acid regurgitation, epigastric discomfort - Depression or irritability - Outbursts of anger - Sighing	Core Symptoms & Signs - Weakness & pain in back & knee joints - Hypochondriac pain - Nocturnal emissions - Dizziness & headache - Deficiency Fire Symptoms General Manifestations - Dizziness & headache - Tinnitus - Forgetfulness - Dry mouth & throat - Insomnia - Dream disturbed sleep - Hypochondriac pain - Soreness & weakness of lumbar region & knee joints - Fever in 5 centers (chest, palms, soles) - Night sweats - Red cheeks (malar flush) - Nocturnal emissions - Scanty menstruation	Core Symptoms & Signs - Hypofunctional reproduction - Early senility in adults (without obvious heat or cold syndrome) - Failure to nourish & moisten sinews, bones, hair, eyes, nails, teeth General Manifestations - Males: scanty semen unable to fertilize - Females: amenorrhea unable to reproduce - Low libido & poor sexual function - Early senility - Tinnitus & deafness - Blurred vision & vision impairment - Poor memory, absentmindedness - Loss of hair, grey hair - Loose teeth - Weak bones	Core Symptoms & Signs - Cold pain of lumbar region & knees or lower abdomen - Chronic diarrhea - Chronic edema (yin type) - Deficiency cold Symptoms General Manifestations - Bright white complexion - Cold body & limbs - Cold pain of lumbar region & knee joints or lower abdomen - Dawn (0500) diarrhea - Chronic diarrhea with undigested food - General edema - Scanty urine or profuse clear urine - Abdominal distention like the surface of a drum
Tongue	• Pale tongue coating	• Thin white or yellow coating	• Red w/ little coating	• Pale	• Pale, enlarged • White slippery coating
Pulse	• Wiry or weak	• Wiry or wiry & rapid	• Thready & rapid	• Thready & weak	• Deep, slow, weak
Treatment Principles	• Move Liver Qi • Harmonize Spleen function	• Move Liver Qi • Regulate Stomach function	• Reinforce Liver & Kidney Yin • Clear uprising Yang	• Tonify Liver Blood • Reinforce Kidney Essence	• Warming & reinforcing Spleen & Kidney

Notes: 5/26/2016 Blood deficiencies • Liver: more physical manifestations • Heart: More mental manifestations → • Heart strong/weak • From Shang Han Lun: Discussed Blood deficiency → Pulse moderated & slow but in normal range → Not pathologically slow (Heart Yang Xu is pathology slow) • Heart Yang Deficiency (bradycardia → slower than normal range (sinus rhythms) → <60) • Sinus rhythms: Heart have 2 types of cells (contraction & conduction) – electrical currents in the heart • Sinus nodules control everything ▪ 60-100: sinus rhythm (no exercise: 75 bpm, exercise: slower in normal range) ▪ 40-60: conjunctive rhythm • Individual concept: each person has own rhythm, in normal range What is manifestation of insomnia? • Stress, Heart fire, liver qi stagnation Heart blood deficiency: • Involves people sleeping very shallowly. • Normal people dream every night, but often don't remember dreams. • Cannot maintain good sleep Blood Deficiency: Heat manifestation (dryness in body, mental, insomnia, not excess heat, is deficient heat) Qi Deficiency: Cold manifestation Qi & Blood Deficiency: Depends on dominant pattern Which is most important? Poor memory, even not remembering dreams TCM: blood nourish mind, WM: passes blood/brain barrier Don't drink too much coffee → affects memory (constricts vessels) Flabby tongue is more thick. Small tongue: narrow & thin Teeth mark & flabby → same • Swollen: inflammation, infection, big • Flabby: big but no inflammation, muscle loose, too flabby (muscles weak, loose) → teeth marks Why no spleen blood Xu? Because the spleen nutrient Qi xu causes Heart blood Xu. Heart Blood Xu vs. Heart Yin Xu Heart blood (mental manifestations) xu vs. Liver blood xu (More physical manifestation: eyes, hair, tendons, etc) Middle eastern dates on palm trees. Chinese dates are on a hardwood tree. (jujube) Heart: Back, then forward In 1930-1950: Treat menopause → first give aspirin, ice packs, think it's a mental disease, sleeping pills TCM: replace yin Only Heart has 4 deficiency, only heart has collapse (Being King is not easy) Heart has small intestine connection Organs involved in urination: kidney & small intestine Lung has heat, not fire	Kidney functions 1. Store essence (kidney essence evaluation area) 2. Dominate human development & reproduction (kidney produces egg & sperm, while liver regulates menses & ejaculation) 3. Dominate water metabolism 4. Receive Qi Small intestine supplies water to kidney Urinary bladder only stores urine Inhale: Lung & Kidney (grasps Qi) Exhale: Just lung Upper part of kidney function: Grasping Qi (respiration) Lower part 1. Urination 2. Egg & sperm Any excess pattern in kidney system? Yes. Damp Heat in UB Any excess in Kidney? NO! Immunity Qi 3 levels • Upper burner: respiratory, general → Wei Qi • Middle burner: GI → eating bad food, E. coli → Not Wei Qi, tonify Spleen Qi • Lower burner: Tonify Kidney Qi Insecurity 3 Yang Collapse: Heart, spleen & kidney • Heart attack • Spleen qi fail control blood (hemorrhage, GI bleeding) • Kidney yang collapse due to kidney fail to grasp Qi (respiratory failure) Kidney Qi deficiency (2 areas) Kidney Essence Xu Kidney Yin Xu Kidney Yang Xu Type of deficient cold in kidney yang deficiency leading to abnormality in warming & qi transformation. Pattern also called "failure of vital gate fire" Three theories 1. Modern concept: kidney have yin & yang. Yang is called Ming Men. Adrenals sit on top of kidneys 2. Traditional concept: In the location Left is Yang (male), Right is Yin (female), but in Kidney organs, the directions are opposite → Right Kidney (pulse) is Yang (Ming Men fire) Left Kidney (pulse) is Yin 3. Other theory: Between kidneys is an area called Ming Men (DU 4)
